Rubbermaid BRUTE® Round Containers

Built to be tough. Built to be versatile. These Brute containers are the industry leader!

- Crush-resistant construction makes BRUTE® all-purpose containers tough enough to stand up to the harshest work environments - you can rely on them for all your storage and handling needs
- Double-ribbed base which increases stability and dragging capacity
- Reinforced rims add strength and durability
- Strong, snap-on lids are available for secure, stable stacking
- Built-in handles allow easy, non-slip lifting and anti-jam nesting
- Rubbermaid BRUTE Round Containers all plastic construction will not rust, chip or peel, resists dents.
- Tight-fitting indented lid design helps protect dry goods and other contents, while facilitating stacking during transportation and storage
- All colours and sizes certified to NSF International Standard #2 (foodservice equipment, handling, and processing) and Standard #21 (containers intended for indoor and outdoor storage of refuse)
- Quick and easy twist on, twist off dolly provides safe mobility

Cantilever Racking

The most efficient solution for storing irregular awkward or long items such as bulky furniture, timber lengths, PVC and steel pipes, carpet rolls, plasterboard, windows and doors, long wooden pallets and much more.

The arm locations can be easily and efficiently adjusted without any tools required to suit your specific height or length requirements. So no matter how large, small, long or short your storage problems are, this cantilever racking system will provide you with the most economical and practical solution.

Available in both single and double sided configurations in both medium duty and heavy duty versions. Our cantilever racking is also available in galvanised finish which is great for outdoor storage areas.

Standard Sizes Available

	Powder Coated	Galvanised

Heavy Duty Longspan Shelving

This heavy duty longspan shelving system is a strong and versatile shelving system which is great for storing small parts and archives.

The Stormax longspan system is a heavy duty system which is similar to pallet racking just in a smaller profile.

- This system is supplied standard with 3 adjustable shelves however extra shelf levels can be ordered for each set
 - Available in 2 shelf options, steel or mesh
 - End frames are supplied assembled for quick and easy setup
 - Step beams so that the shelves sit flush inside the beam
 - Shelf Capacity: 375kg per shelf (evenly distributed)
 - On site installation available - contact us for a quotation
 - Steel and mesh shelves are supplied as 2 separate pieces per level
- Standard Shelf Depths: 450mm and 600mm
 - Standard Heights: 1800mm and 2400mm
 - Standard Widths: 1800mm and 2400mm

Ladderweld Access Platform

Bailey Ladderweld Access Platforms are designed for safe, easy and efficient use in warehousing, vehicle maintenance, mining, aviation and heavy industry workplaces.

- Access Platform 2-In-1 With Bonus Work Shelf
- Super strong 'fully welded' design fabricated from heavy duty aluminium
- Steel bracing under bottom tread and side bracing provides additional protection from impact damage
- 100mm deep treads improve safety and comfort when climbing
- Suited to 'high frequency' use
- Walk-thru' design for stock picking and access to mezzanine floors, vehicle access and warehousing
- Large 125mm wheels – improved portability and 'easy glide' action
- Large stable work platform (safe and stable) – 590mm x 800mm
- Manually operated braking system with high-vis powder coated activation arm helps minimize unauthorised access
- Two safety gates fitted (a 2 in 1 product allowing for walk-thru access)
- Toeboard on three sides (helps secure tools/accessories)
- Shelf included
- Made to AS/NZS 1892.1
- 170kg load rating
- Industrial duty rating for use on commercial sites
- Meets Work Cover requirements (safety gate + 900mm handrail, toeboard)
- Supplied as a 'flat pack' for optimal transporting however can be assembled on request

Scissor Lift Trolleys

These units help take the strain out of loading and unloading items from raised levels. The table is elevated by a pump action foot pedal and smoothly lowered by a hand operated release trigger. The double scissor model, gives the added advantage of elevating loads of up to a height of 1575mm.

- Foot operated hydraulic operation
- Lever release control
- Safety overload bypass valve
- Positive braking system on rear wheels
- Durable powder-coated finish
- Stepless rate of lowering regardless of load weight
- The 150kg version has a foldable handle as per image

							Price Each

Extra Large Scissor Lift Trolley

The extra large scissor lift trolleys are excellent for handling large bulky items.

The table is elevated by a pump action foot pedal and smoothly lowered by a hand operated release trigger.

- Foot operated hydraulic operation
- Lever release control
- Safety overload bypass valve
- Positive braking system on rear wheels
- Durable powder-coated finish
- Stepless rate of lowering regardless of load weight
- Load Capacity: 500kg
- Table Size: 810x1600mm
- Unit Weight: 154kg
- Min Height: 290mm
- Max Height: 915mm

Aluminium Scissor Lift Trolley

Extremely lightweight - Great for vehicle transport

- Foot operated hydraulic operation
- Lever release control
- Safety overload bypass valve
- 100mm castors with brakes on rear wheels
- Stepless rate of lowering regardless of load weight
- Foldable handle
- Handle Height: 1000mm
- 100kg load capacity
- Table Size: 450x700mm (WxL)
- Minimum Height: 265mm
- Maximum Height: 755mm
- Unit Weight: 24kg

Galvanised Scissor Lift Trolley

Galvanised version which is great for food and medical areas

- Foot operated hydraulic operation
- Lever release control
- Double scissor lift version
- Safety overload bypass valve
- 100mm castors with brakes on rear wheels
- Stepless rate of lowering regardless of load weight
- 150kg load capacity
- Table Size: 500x830mm (WxL)
- Minimum Height: 435mm
- Maximum Height: 1430mm
- Unit Weight: 80kg

Low Profile Pallet Lift Table

Now Only
\$3465 +GST ea
Was \$4590
Code: LT7250

- Low clearance – only 85 mm
- Supplied with entry ramp to allow pallet truck entry
- Can be supplied with optional rotator ring
- Tables are specially made for handling pallets, no need for a pit or load ramps
- Upper platform fitted with safety perimeter to prevent descent on contact with obstructions
- 24v control box with UP and DOWN buttons and emergency stop
- External power pack equipped with a relief valve against overloading and a compensating flow valve for controlling lowering speed
- Power Supply: 240v
- Hose burst safety valve to stop the lift table lowering in case of hose breakage
- Removable lifting eyes to facilitate handling and installation of the lift table
- Oil-less bushings on pivot points
- Load Capacity: 1000kg
- Platform Size: 1140x1420mm
- Lift Height: 85mm (min), 880mm (max)
- Ramp supplied with lift table

Bishamon Pneumatic Rotating Pallet Positioner

The most advanced pallet positioner available!

- EZ Loaders are designed to eliminate worker bending by automatically raising and lowering pallets during loading or unloading without the use of mechanical springs, motors or hydraulics.
- The new EZ loader can now handle a wide range of weight capacities from 110 kilos to 1800 kilos.
- The EZ Adjust knob - a three position knob that allows adjustment of the collapsed capacity without changing the air pressure.
- EZ Loaders also allow easy pallet rotation for near-side loading so the worker does not have to reach or strain.
- As the load weight changes, the EZ Loader automatically adjusts, keeping the top of the load at a convenient working height.
- The patented pneumatic system found only on the EZ Loader has proven to be the choice of industry professionals worldwide.
- Load Capacity: 110-1800kgs
- Low Height: 267mm
- Max Height: 775mm
- Base Frame Size: 617x1245mm

EZ adjust knob provides up to 550kgs of capacity adjustment with the turn of a knob

Patented self-contained pneumatic system offers unsurpassed performance

Rollers are entrapped in the base frame and platform for added stability

Spring Loaded Rotating Pallet Tables

- The pallet elevator keeps the active layer of the load at or above waist height, eliminating bending and lifting.
- It proves highly effective at reducing the incidences of repetitive strain and back injury.
- The construction of the pallet elevator is a scissor type action with varying springs which can be adjusted for different load capacities up to 2000 kg.
- Turntable allows the operator to rotate the load with minimal stretching and reaching.
- No ground fixing required
- Load Capacity: 2000kg
- Table Diameter: 1110mm
- Low Height: 230mm
- Max Height: 705mm
- Base Size: 915x935mm

Orbitwrap 1000 Semi-Auto Stretch Wrapping Machines

The ORBITWRAP machines have been designed and built with economy, efficiency and safe operation in mind.

These stretch wrapping machines will give you all of the features you need to wrap pallet loads quickly and efficiently. The OR-1000 can dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping.

- Forklift relocation slots for easy machine transportation
- Automatic and manual wrapping programs
- Includes ramp for pallet truck access
- User friendly 'Soft Touch' controls
- Eliminate the need for labour intensive, inefficient manual hand wrapping
- Rugged steel construction for long-term reliability
- Photocell eye for automatic height detection

Standard Features

- Electronic screen with 'Soft Touch' control
- Variable film carriage and turntable speeds
- Forklift relocation slots
- Photocell eye for automatic height detection
- Automatic and Manual wrapping programs
- Soft-start and stop turntable drive
- Ramp can be fixed to the table at 3 different angles
- Includes pallet truck access ramp
- Adjustable friction brake stretch system
- Heavy-duty industrial chain driven turntable
- Safety crush prevention device fitted to carriage
- Standard 12 month warranty
