## Spring Loaded Rotating Pallet Table

- The pallet elevator keeps the active layer of the load at or above waist height, eliminating bending and lifting.
- It is proving highly effective at reducing the incidences of repetitive strain and back injury.
- The construction of the pallet elevator is a scissor type action with varying springs which can be adjusted for different load capacities up to 2500 kg.
- A turntable allows the operator to rotate the load with minimal stretching and reaching.
- The elevator also has antibounce technology to allow smooth operation as the pallet is loaded.

## 2000KG Pallet Truck With Load Scales

Our scale pallet trucks are extremely reliable and highly accurate in measuring your pallet weight. This fork truck has a totalising function which adds up multiple pallet weights giving the total weight per shipment or order.

- The weighing unit uses four AA batteries which give approx 4200 weighing actions
- The unit gives a low battery warning and shuts off after 3 minutes
- The digital display can be read from any angle in ambient light conditions
- Optional scale printer unit available on request
- Capacity: 2000kg
- Scale Increments: 1kg
- Scale Functions: Zero correction, gross/net weight, total weight
- Overall Fork Width: 690mm
- Minimum Fork Height: 76mm
- Overall Fork Length: 1220mm
- Overall Truck Length: 1650mm
- Tine Size: 50x182mm
- Steering Wheel Size: 50x180mm

## Steel Shelving

This steel shelving is roll formed from premium pre-painted steel to ensure durability and engineering integrity for both office and warehouse storage applications

Its design flexibility makes it ideal for integration into diverse environments ranging from industrial warehouses and storerooms, through to libraries, museums, retail outlets and offices

Our steel shelving is a bolted construction which forms a strong, stable storage unit that can be easily extended, re-configured or relocated as storage needs change over time

- Can be configured individually, side-by-side and back-to-back
- Shelf sets come standard with 4 adjustable shelves plus a top and bottom shelf, each with a 100kg load rating (top and bottom shelves are fixed)
- Colour: Light Grey
- 5 year guarantee
- Item comes flat packed – easy assembly
- **Installation available - contact us for a quotation**

Each shelving set comes standard with a top and bottom shelf and 4 adjustable shelves as pictured in the image on the right (extra shelves can be ordered as listed)

## Mobile Compacting Shelving

We have completed hundreds of these compact shelving systems over the last 20 years for schools, institutions, industry & government departments and are experts at analysing & satisfying your storage needs.

- By converting standard static shelving to mobile shelving, up to 70% of your floor space can be saved, maximizing the available area
- Each system is individually tailored to suit the specific need & can incorporate a wide range of storage accessories
- Manually operated units require only light pressure to move the bays, and are suitable for storage of light to medium weight items
- Mechanically assisted units are built for larger systems or for storage of heavy items. They are operated by the simple action of rotating a handle

## Mezzanine Floors

**Double the space in the same place!!**

Our Raised Storage Platforms (Mezzanine Floors) are a fast & economical way to add extra floor space within the shell of an existing building. With increasing building costs and rental fees, every square metre of your office and warehouse area needs careful planning and design to yield maximum space efficiency.

- Double your space, in the same place
- Completely dismantlable & easy to relocate
- Designed to accommodate each client's individual needs
- Life time investment

Our Raised Storage Platforms (Mezzanine Floors) are pre-fabricated free standing systems which do not depend on the structure of the existing building. This means that the unique system is completely dismantlable to make relocation easy, which makes our platforms a life time investment. The structures of the platforms are designed to fit your exact area and are carefully considered by our engineer for any desired weight loadings. Our mezzanine floors are designed to accommodate each client's individual needs, and are modified to fit around existing offices, warehouse columns and other obstructions.

**Don't move out - move up!**

### Elevated Office Mezzanine Areas

These are the most efficient way of achieving much needed office space without sacrificing your limited warehouse area

- Ideal for**
- Extra offices
  - Lunch rooms
  - Storage space
  - Computer rooms
  - Secure rooms
  - Staff rooms
  - Bathrooms
