Heavy Duty Longspan Shelving

This heavy duty longspan shelving system is a strong and versatile shelving system which is great for storing small parts and archives.

The Stormax longspan system is a heavy duty system which is similar to pallet racking just in a smaller profile.

- This system is supplied standard with 3 adjustable shelves however extra shelf levels can be ordered for each set
- Available in 2 shelf options, steel or mesh
- End frames are supplied assembled for quick and easy setup
- Step beams so that the shelves sit flush inside the beam
- Shelf Capacity: 375kg per shelf (evenly distributed)
- On site installation available - contact us for a quotation
- Steel and mesh shelves are supplied as 2 separate pieces per level

- Standard Shelf Depths: 450mm and 600mm
- Standard Heights: 1800mm and 2400mm
- Standard Widths: 1800mm and 2400mm

Steel Shelves

Mesh Shelves

Please Note:

To order the 'Add on Bays' add an 'A' to the end of the code number
To order an 'Extra Shelf Level' add an 'E' to the end of the code number

Pallet Racking Column Guards

- Pallet Racking Column Guards are a highly effective solution for preventing damage to racking and inventory by forklifts
- No matter how good your forklift drivers are, there will always be sometime when an accident or mistake happens when they crash into the pallet racking - You can avoid major injuries and pallet rack damage by installing these protection guards
- Damage and failure not only cause serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs
- Conforms to AS4084:2012
- Size: 400mm high x 220mm deep

6.5 Tonne Capacity Folding Container Ramp

This container ramp has a self-levelling lip that is designed for bridging into a standard container even if the ground is not level.

The ramp foot has handles which allow it to be easily folded back for access to the fork slots.

Specifications

- Capacity: 6500kgs
- Unit Weight: 275kgs
- Finish: Painted yellow
- Width: 2200mm
- Length: 2000mm
- Fork Pocket Size: 165x60mm
- Fork Pocket Centres: 775mm
- Supplied with chain & D-shackle as pictured

Galvanised Electric Scissor Lift Table

Lift tables can be applied in many work places to increase productivity and safety. Loads can be elevated or lowered to optimum heights at the push of a button.

- Heavy duty design and construction
- High quality European power packs
- Suitable for on floor applications or in floor pit applications
- Self lubricating bushings on pivot points
- Removable lifting eyes to facilitate installation and maintenance
- Upper platform fitted with aluminium safety bar preventing descent on contact with obstructions
- Low volt (24v) control box with up-down buttons.
- Internal power pack equipped with relief valve against overloading and compensated flow valve for controlled lowering speed
- Heavy duty cylinders with drainage system and check valve to stop the lift table lowering in case of hose burst
- Safety clearance between scissors to prevent trapping during operation.
- Push button pendant control with up, down and emergency stop
- Capacity: 2000kg
- Table Size: 850x1350mm (WxL)
- Base Frame Size: 785x1255mm (WxL)
- Heights: 230mm (min), 1000mm (max)
- Unit Weight: 235kg
- Power Supply: 3 Phase 415V

500kg Capacity Scissor Lift Trolley

These units help take the strain out of loading and unloading items from raised levels. The table is elevated by a pump action foot pedal and smoothly lowered by a hand operated release trigger.

- Foot operated hydraulic operation
- Lever release control
- Safety overload bypass valve
- Positive braking system on rear wheels
- Durable powder-coated finish
- Stepless rate of lowering regardless of load weight
- Table Size: 500x850mm
- Lift Heights: 340mm (min), 880mm (max)
- Unit Weight: 81kg

2 Tonne Hook & Tow Jib Attachment

This 2000kg hook & tow jib is suitable for most forklifts and is a simple slip-on attachment with safety chain and swivel hook as pictured.

- Safe Working Load: 2000kg at 1160mm load centre
- Fork Pocket Size: 140x65mm
- Fork Pocket Centres: 250mm
- Fork Pocket Length: 1220mm
- Unit Weight: 45kg
- Finish: Zinc plated
- Maximum weight on towball must not exceed 500kg
- Hook jib has 2 lifting positions
- Overall dimensions: 1420x420x135mm (LxWxH)

Spring Loaded Rotating Pallet Tables

- The pallet elevator keeps the active layer of the load at or above waist height, eliminating bending and lifting.
- It proves highly effective at reducing the incidences of repetitive strain and back injury.
- The construction of the pallet elevator is a scissor type action with varying springs which can be adjusted for different load capacities up to 2000 kg.
- Turntable allows the operator to rotate the load with minimal stretching and reaching.
- No ground fixing required
- Load Capacity: 2000kg
- Table Diameter: 1110mm
- Low Height: 230mm
- Max Height: 705mm
- Base Size: 915x935mm

Ready to load Beginning loading Partly loaded Fully loaded

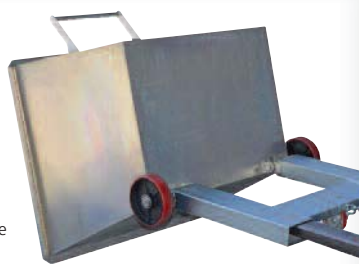

Price Each

Zinc Plated Forklift Waste Tipping Bins

- This light weight fork waste bin is great for use in warehouses and on sites for general waste and rubbish
- Fitted standard with 2 front wheels and 1 rear wheel for easy wheeling throughout the workplace
- Manual push over for tipping into larger bins or skips
- Available in 2 standard sizes
- Drain plug fitted as standard
- Safe Working Load: 350kg
- Finish: Zinc plated
- Fork Pocket Size: 140x65mm
- Fork Pocket Centres: 367mm
- Available in 350 and 650 litre sizes

Price Each (ex GST)

Code	Dimensions	Size	Unit Weight	Now

Fully Auto Electric Fork Stacker

These fully auto fork stackers have the latest technology and safety functions. They are fully automatic and have both electric drive and electric up/down.

The motor structure is both dust and water proof which makes it functional to load or unload trucks in wet conditions.

They have an adjustable fork tines straddle leg which allows the operator to pickup Australian sized pallets as well as other smaller or odd shaped pallets or skids.

Mezzanine Floors

Mobile STORAGE SYSTEMS

Double the space in the same place!!

Our Raised Storage Platforms (Mezzanine Floors) are a fast & economical way to add extra floor space within the shell of an existing building. With increasing building costs and rental fees, every square metre of your office and warehouse area needs careful planning and design to yield maximum space efficiency.

- Double your space, in the same place
- Completely dismantlable & easy to relocate
- Designed to accommodate each client's individual needs
- Life time investment

Our Raised Storage Platforms (Mezzanine Floors) are pre-fabricated free standing systems which do not depend on the structure of the existing building. This means that the unique system is completely dismantlable to make relocation easy, which makes our platforms a life time investment. The structures of the platforms are designed to fit your exact area and are carefully considered by our engineer for any desired weight loadings. Our mezzanine floors are designed to accommodate each client's individual needs, and are modified to fit around existing offices, warehouse columns and other obstructions.

Don't
move out
- move up!

Elevated Office Mezzanine Areas

These are the most efficient way of achieving much needed office space without sacrificing your limited warehouse area

- Ideal for**
- Extra offices
 - Lunch rooms
 - Storage space
 - Computer rooms
 - Secure rooms
 - Staff rooms
 - Bathrooms
