Pedestrian Event Control Fence

Event Fence portable barrier is a system of interlocking freestanding fence panels. Simply link Event Fence panels together to create continuous barricading for festivals, parades, sporting events or work sites. Optional forklift stillage makes storage and transporting of Event fence panels simple and efficient.

Fence Specifications

- Fully welded steel construction, galvanised finish
- Panels nest together when not in use to reduce storage space
- Vertical bars eliminate climbing points
- Panels are able to pivot at joints
- Low profile, removable feet reduces tripping hazards
- Height: 1100mm
- Length: 2200mm
- Width: 490mm
- Weight: 16kg

Freestanding panels, link together
No tools required

Price Each

Code	Description	1-9	10+
B6710	Event Fence Barrier Panel	\$185.00	\$POA
B6711	Event Fence Stillages (holds 30 panels)	\$489.00	\$POA

Portable Ecoline Belt Post Barrier

The Econoline is our most affordable portable post and base belt barrier, offering an economical alternative to the high end Highline models. The weighted base is covered with a polished stainless steel skirt for a quality finish. The base has built-in scuff pads to protect sensitive floors. Furthermore, the NBEL is compatible with our other belt barriers, as it uses the same belt cassettes.

Specifications

- Post: 304 stainless, 63 x 0.8 x 950mm high
- Base: Weighted with stainless skirt
- Base Size: 330mm diameter
- Portable freestanding
- Retractable 2 metre 4-way
- Weight: 8kg

Price Each

Verge Pedestrian Safety Barriers

Verge is a unique barrier solution providing a safe segregation of vehicles and people. Verge Barriers create a strong physical boundary between pedestrians and moving equipment such as forklifts, tow tugs and other vehicles used inside industrial warehouses and facilities.

Verge Safety Barriers with Handrail are fitted with a modular handrail attachment providing a complaint 1m high handrail to the walkway side of the Verge pedestrian barrier. The purpose of V-Rail is to create an ultimately safe passage offering support and assistance as well as a grab point in the event of a trip incident.

Features

- WHS Acceptance
- 2 heights and optional length kits
- Product is Galvanised, prior to powder coating
- Superior Strength and finish
- Fully modular
- Optional lengths to suit all requirements
- Accessory options. Eg. Gate and rails
- Flat pack
- Ease of installation
- 5 years warranty

SBVG1	Verge Self Closing Swing Gate (to suit 1000mm high barrier)	\$817.00	\$POA

Verge Pedestrian Safety Barriers

Verge Safety Barriers with Handrail are fitted with a modular handrail attachment providing a compliant 1m high handrail to the walkway side of the Verge pedestrian barrier. The purpose of V-Rail is to create an ultimately safe passage offering support and assistance as well as a grab point in the event of a trip incident. V-rail is essential for escape routes, to protect and guide when visibility is an issue in the event of power failure, fire and emergency evacuation.

Verge is unique as it provides two key safety features in one product. Not only does it offer substantial protection against vehicle traffic but, with the adaptability of the modular handrail, the Verge barrier provides a safe passage way for emergency evacuation, bringing compliance into the workplace.

Features

- WHS Acceptance
- Compliant 1m high handrail
- Provides a safe passageway for emergency exits
- Provides a grab point in event of trip/fall
- Offset by 100mm preventing tripping on the barrier
- Product is Galvanised, prior to powder coating
- Superior Strength and finish
- Fully modular
- Optional lengths to suit all requirements
- Accessory options. Eg. Gate and rails
- Flat pack
- Ease of installation
- 5 years warranty

Ball Fence Gate

- Self-closing operation
- Compatible with Ball-Fence hand rail system
- Supplied with 42.4mm diameter galvanised hoop
- Can swing inward or outward
- Can be used in pairs for wider openings
- Gate Swing: 90 degrees
- Gate stop: Built-in
- Opening: Single gate 1.5 metres
- Max. open: Double gates 3 metres
- Min. open: No minimum
- Adjustment: Cut down on site
- Height: Top rail 1017mm above floor
- Clearance: Overhead clearance not applicable
- Mounting: Existing posts, walls, optional posts available
- Weight: 18kgs gate assembly with 1.5 metre hoop

Pallet Racking Column Guards

Pallet Racking Column Guards are a highly effective solution for preventing damage to racking and inventory by forklifts.

No matter how good your forklift drivers are, there will always be sometime when an accident or mistake happens when they crash into the pallet racking. You can avoid major injuries and pallet rack damage by installing these protection guards.

Damage and failure not only causes serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.

- Conforms to AS4084:2012
- Size: 400mm high x 220mm deep

Price Each

Code	Description	1-9	10-19	20+
11327	Pallet Racking Column Guard	\$44.80	\$39.95	\$POA

Pallet Racking End Protectors

Pallet Racking End Protectors are a highly effective solution for preventing damage to racking and inventory by forklifts.

No matter how good your forklift drivers are, there will always be sometime when an accident or mistake happens when they crash into the pallet racking. You can avoid major injuries and pallet rack damage by installing these protection guards.

Damage and failure not only cause serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.

- Single Bay End Protector to suit 838mm frame

Modular Steel Speed Humps

Ideal for car parks, shopping centres or factory complexes

- Designed to comply with AS/NZS 2890.1:2004
- More than four times the load bearing contact area with the road surface than competitor's products
- Can be used with or without end caps
- Comes complete with all fixings
- Truly independent modules for easy removal
- Does not need a rubber underlay to prevent rattle
- Concealed fixings remain accessible
- Modules have a built in bridge design to accommodate hoses or cables

Specifications

- Top Skin: 3mm floor plate
- Length: 1 metre or 1/2 metre
- Width: 350mm (in the driving direction)
- Height: 52mm
- Ramp angle: 2:1
- Weight: AB1581 – 16.5kgs
AB1580 – 9.2kgs
AB1582 – 5.2kgs/pair (rubber)
AB1583 – 5kgs/pair (steel)
- Fixings: Supplied

One Way Road Spike Access Humps

- Extremely strong construction, 6mm top plate
- Hi-Vis Lime Green with Hi-Vis Orange spikes
- Deters access from unauthorised direction
- All teeth operate independently of each other
- Low profile design ensures legal vehicle clearance
- Soft approach due to low ramp angle
- Comes complete with all fixings
- Available in 1000 and 500mm lengths

Specifications

Finish: Lime green & Hi-Vis orange powder coat
 Length: 500 or 1000mm
 Width: 380mm
 Height: Teeth up 95mm Teeth retracted 50mm
 Weight: 1 metre = 26kg (approx)

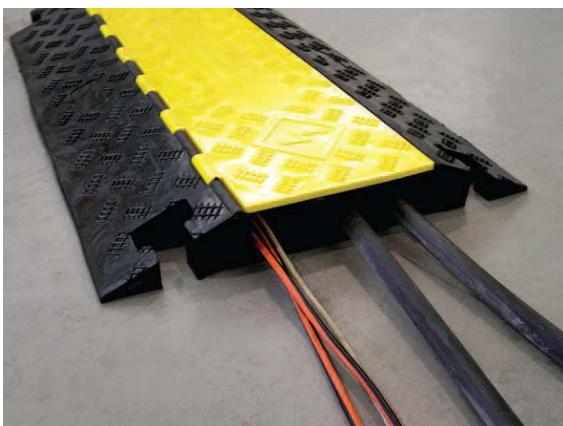

Please Note

Always check with your local authority or controlling body to ensure one way access spikes are allowable in your situation (this is the end users responsibility). These one way access spikes MUST always be installed with an awareness sign kit (code AB1593). One way access spikes should always be placed clear of intersections and curved roadways. Failure to heed these warnings will void all warranties.
