Crane / Forklift Spreader Beam

The type FL2439 Spreader Beam is a unique multitasking Beam which can be used by Crane or Forklift to lift long loads. Using a Crane, loads can be lifted via the centre single hook point (as a 'Lifting Beam'), or end lifted using a 2 leg Chain Sling (as a 'Spreader Beam'). If lifting by forklift, the 600mm long slipper pockets allow for fast and safe connection to the truck.

The Spreader Beam load connection points are adjustable to 3 positions by moving the extendable arms each end. Both extendable arms are locked into position via safety pins. The unit is supplied standard with a safety swivel hook each end.

The extendable arms are zinc plated with the main body painted in 'safety orange'.

- Rated Capacity (RC Max.): 9000kg
- Load Centre (LC): 2405mm
- Unit Weight: 172kg
- F/Lift HCG: 300mm

- Safe Working Load: 510kg
- Unit Weight: 163kg

Scissor Lift Trolleys

These units help take the strain out of loading and unloading items from raised levels. The table is elevated by a pump action foot pedal and smoothly lowered by a hand operated release trigger. The double scissor model, gives the added advantage of elevating loads of up to a height of 1575mm.

- Foot operated hydraulic operation
- Lever release control
- Safety overload bypass valve
- Positive braking system on rear wheels
- Durable powder-coated finish
- Stepless rate of lowering regardless of load weight
- The 150kg version has a foldable handle as per image

Bishamon Pneumatic Rotating Pallet Positioner

The most advanced pallet positioner available!

- EZ Loaders are designed to eliminate worker bending by automatically raising and lowering pallets during loading or unloading without the use of mechanical springs, motors or hydraulics.
- The new EZ loader can now handle a wide range of weight capacities from 110 kilos to 1800 kilos.
- The EZ Adjust knob - a three position knob that allows adjustment of the collapsed capacity without changing the air pressure.
- EZ Loaders also allow easy pallet rotation for near-side loading so the worker does not have to reach or strain.
- As the load weight changes, the EZ Loader automatically adjusts, keeping the top of the load at a convenient working height.
- The patented pneumatic system found only on the EZ Loader has proven to be the choice of industry professionals worldwide.
- Load Capacity: 110-1800kgs
- Low Height: 267mm
- Max Height: 775mm
- Base Frame Size: 617x1245mm

EZ adjust knob provides up to 550kgs of capacity adjustment with the turn of a knob

Patented self-contained pneumatic system offers unsurpassed performance

Rollers are entrapped in the base frame and platform for added stability

MobiCrane Portable Vacuum Lifter - 3 Meter Arm

- MobiCrane is designed for mobile and fixed overhead handling of sheet material, sacks, boxes and bespoke products up to 65kg using a range of lifting manipulators including vacuum lifting with standard and bespoke grippers.
- There are a number of lifting device attachments available including mechanical, magnetic or vacuum lifting grippers, suction cups and custom made handling tools.
- This overhead handling application is adaptable to changing requirements and offers flexibility to adjust the MobiCrane to suit your applications.
- Max Load at 3m arm length: 65kg
- Adjustable Tower: Max lifting height: 2716mm (with tower in highest position) Min lifting height: 1816mm (with tower in lowest position)
- Jib arm length/working area: 3 metres (26.6m²)
- Operation: Battery Electric motor lift operation with adjustable lift/ lowering speed Vacuum operated by compressed air.
- This particular unit is supplied with the bellow-cups as pictured below which can be adjusted to suit different size objects to lift.
- Easy to move around with pallet truck or forklift
- Quick and easy to use - simply plug in a compressed air line and its ready to go
- Can be used on battery electric power then recharge when not in use

Mezzanine Pallet Safety Roll Over Gate

The mezzanine Roll-Over Gate is the ideal solution for providing ultimate personnel protection whilst allowing fork truck loading access to the Mezzanine Floor.

Our mezzanine Roll-Over Gate is permanently anchored at the loading edge of the Mezzanine Floor providing protection from the fall edge at all times. The Roll-Over Gate works on the principle of providing hand, knee and kick rails to either side of the palletized load by simply swinging the evenly balanced gate over the top of the load, protecting persons from the fall edge which eliminates the risk of fall injury.

Multi-Tip Battery Electric Bin Tipper

The Multi-Tip bin-tipper is everything a bin tipper should be - safe, economic, easy to use, versatile, and efficient.

Perfect for light industrial use to empty bins at schools, factories, recycling centres and more. These tipper are battery powered which have a sealed battery and an industrial-quality 'float' charger built in.

Specifications

- 150kg safe lifting capacity
- Fast 20 seconds to empty a bin
- Tipping Height: 1.6m
- Battery-powered with a sealed battery and an industrial-quality 'float' charger built in
- Indoor or outdoor use
- 125mm castors, 2 with brakes
- Rugged powder coated frame
- Suits popular bin sizes 80L, 120L, 140L and 240L, with no adjustment
- Lockout key and two-hand controls for safety
- Simple plug in to charge overnight

Springer Stand Tables

The Springer is an innovative yet simple spring loaded leveling system used primarily in the timber industry for keeping packs of timber at a safe and convenient working level.

The clever design makes the unit intrinsically safe as the unit cannot be over loaded, the spring configuration takes the load as soon as the weight becomes equal or less than the power of the springs i.e. if 3000kg is loaded and the spring configuration is

1 x 500kg spring then as soon as the load reaches 500kg the Springer begins to take the load and as the load lessens the spring begins to ascend bringing the load up to a safe working height.

- Up to 1500kg max spring capacity (please specify what weight capacity when placing your order)
- Minimum Height: 160mm
- Maximum Height: 700mm
- Ideal for long packs of timber
- 12 Month Warranty
- Size: 250x1200mm (WxL)

Plastic Mega Bins

The Nally MegaBin is the original Australian bulk bin. Designed for fruit and vegetable movement and retail high performance the Nally MegaBin is clearly the way of plastic bins in Australia.

Rounded corners and smoother interior surfaces results in less bruising and damage to your produce. Multiple vents in sides and base provide superior airflow so products cool faster adding valuable shelf life to your produce. The smooth, non-absorbent surface will not harbour or transfer mould, bacteria or disease carrying organisms.

Nally Megabins are up to 40% lighter in weight than wood bins and the weight is constant as they don't absorb moisture. This allows for increased freight efficiencies of 4-5%. In practice you are able to transport 2-3 extra bins of fruit per semi-trailer load.

- Available in both solid and vented
- Standard pallet size (1165mm x 1165mm)
- Fits on standard pallet racking
- Unit Weight: 44kg approx
- Lid Weight: 10kg
- Maximum load capacity: 500kg

Mesh Stillage / Transport Cages

Multi-purpose transport or storage cages which are great for storing products both indoor and outdoor.

- These cages can also be stored on pallet racking
- Drop down removable front gate
- Cages can be stacked 2 high when loaded and 4 high unloaded
- Internal Dimensions: 1080x1080x825mm
- External Dimensions: 1160x1200x1000mm
- Supplied flatpacked (can be assembled on request)
- Optional floor available
- Finish: Zinc plated
- Load Capacity: 1000kg
- Unit Weight: 65kg

Pallet Racking End Protectors **STORMAX**

Pallet Racking End Protectors are a highly effective solution for preventing damage to racking and inventory by forklifts.

No matter how good your forklift drivers are, there will always be sometime when an accident or mistake happens when they crash into the pallet racking. You can avoid major injuries and pallet rack damage by installing these protection guards.

Damage and failure not only cause serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.

- Single Bay End Protector to suit 838mm frame
- Double Bay End Protector to suit 838mm frame + 430mm space + 838mm frame
