X-Cart Folding Trolley (Includes 1 basket)

- The X-Cart is a collapsible trolley that can be used for hundreds of applications.
- It can be completely collapsed by the push of a button on the handle. The wheels are able to be removed by the push of a button and stored underneath for compact transport and storage.
- The X-Cart is supplied with one collapsible basket which will lock into place on either the top or bottom platform. The top platform can be folded back to allow larger items to be transported if required.
- Extra baskets are available for use on both platforms or up to 4 baskets can be stacked on the bottom platform.
- A robust foot pedal brake allows the X-Cart to be locked in position whilst loading or unloading.
- The injection moulded plastic and aluminium design means that whilst the X-Cart is lightweight it is still very robust and has a great carrying capacity.
- The basket fits fooscap suspension files, which is great for transporting documents throughout the office.
- The X-Cart can also be used with our standard No.7, No.10 and No.15 tubs.

Low Profile Electric Pallet Lift Tables

- Many applications require the regular loading and unloading of palletised goods.
- Using pallet lift tables elevates pallets to the optimum lift height reducing the risk of repetitive strain injury and increasing productivity.
- Supplied with entry ramp to allow pallet truck entry
- Tables are specially made for handling pallets, no need for a pit or load ramps
- Upper platform fitted with safety perimeter to prevent descent on contact with obstructions
- 24v control box with UP and DOWN buttons and emergency stop
- External power pack equipped with a relief valve against overloading and a compensating flow valve for controlling lowering speed
- Power Supply: 240v (3 phase 415v available if required)
- Hose burst safety valve to stop the lift table lowering in case of hose breakage
- Removable lifting eyes to facilitate handling and installation of the lift table
- Oil-less bushings on pivot points

Galvanised Pallet Elevator with Pallet Truck Base

- The pallet elevator keeps the active layer of the load at or above waist height, eliminating bending and lifting.
- This pallet elevator can be moved with a standard Pallet Truck
- It is proving highly effective at reducing the incidences of repetitive strain and back injury.
- The construction of the pallet elevator is a scissor type action with varying springs which can be adjusted for different heights
- Turntable allows the operator to rotate the load with minimal stretching and reaching.
- No ground fixing required
- Galvanised finish
- Load Capacity: 2000kg
- Table Diameter: 1110mm
- Low Height: 315mm
- Max Height: 790mm
- Fork Pocket Centres: 615mm
- Fork Pocket Size: 300x90mm

Bishamon Pneumatic Rotating Pallet Positioner (For varying pallet weights)

The most advanced pallet positioner available!

- EZ Loaders are designed to eliminate worker bending by automatically raising and lowering pallets during loading or unloading without the use of mechanical springs, motors or hydraulics.
- The new EZ loader can now handle a wide range of weight capacities from 110 kilos to 1800 kilos.
- The EZ Adjust knob - a three position knob that allows adjustment of the collapsed capacity without changing the air pressure.
- EZ Loaders also allow easy pallet rotation for near-side loading so the worker does not have to reach or strain.
- As the load weight changes, the EZ Loader automatically adjusts, keeping the top of the load at a convenient working height.
- The patented pneumatic system found only on the EZ Loader has proven to be the choice of industry professionals worldwide.

Crane / Forklift Spreader Beam

The Spreader Beam is a unique multitasking Beam which can be used by Crane or Forklift to lift long loads. Using a Crane, loads can be lifted via the centre single hook point (as a 'Lifting Beam'), or end lifted using a 2 leg Chain Sling (as a 'Spreader Beam'). If lifting by forklift, the 600mm long slipper pockets allow for fast and safe connection to the truck.

The Spreader Beam load connection points are adjustable to 3 positions by moving the extendable arms each end. Both extendable arms are locked into position via safety pins. The unit is supplied standard with a safety swivel hook each end.

The extendable arms are zinc plated with the main body painted in 'safety orange'.

- F/Lift HCG: 300mm

Side Shift Drum Palletiser

- The Side Shift Drum Palletiser is specially designed for moving drums and barrels from any position on a pallet.
- It uses a sliding side-shift arrangement allowing it to even be used for moving containers and drums placed in the centre of a pallet.
- The palletiser straddles the pallet and only requires access to one side, thus allowing pallets in confined areas to be kept against the wall even when unloading.
- When moving the drum onto another pallet, scales or the floor, the drum can also be moved to either side using the side-shift arrangement
- This unique design side shift drum palletiser can pickup drums from any position on the pallet, skid or bund -straddles beside and over the pallet
- Suitable for both steel and plastic drums
- The operator requires only 12kg of force on the handle to lift a 300kg drum
- Load Capacity: 350kg
- Ground/Pallet Clearance: 350mm
- Max Lift Height: 575mm
- Overall Size (LxWxH): 920x1550x1520mm
- Unit Weight: 168kg
