X-Cart Trolley

- The X-Cart is a collapsible trolley that can be used for hundreds of applications.
- It can be completely collapsed by the push of a button on the handle. The wheels are able to be removed by the push of a button and stored underneath for compact transport and storage.
- The X-Cart is supplied with one collapsible basket which will lock into place on either the top or bottom platform. The top platform can be folded back to allow larger items to be transported if required.
- Extra baskets are available for use on both platforms or up to 4 baskets can be stacked on the bottom platform.
- A robust foot pedal brake allows the X-Cart to be locked in position whilst loading or unloading.
- The injection moulded plastic and aluminium design means that whilst the X-Cart is lightweight it is still very robust and has a great carrying capacity.
- The basket fits foolscap suspension files, which is great for transporting documents throughout the office.
- The X-Cart can also be used with our standard No.7, No.10.No.15 tubs
- Includes extra basket to suit

Compact Ride- On Electric Materials Handling Tug

The Liftex ride-on compact electric tug is the ultimate manual handling solution designed for goods transport for trolleys and anything that is difficult to push or pull around in the hospital, aged care and industrial warehouse environments.

The Liftex Materials Handling Electric Towing Tug is a ride-on unit that doesn't compromise its small size for a ride. Its compact size allows it to be effective in confined spaces, whilst being able to turn on its self. With a very low centre of gravity, the risk of tipping is greatly reduced. Its two front steer wheels create exceptional stability across many rough surfaces.

- Machine Length: 790mm
- Machine Width: 660mm
- Wheel Base: 620mm
- Platform Height: 170mm
- Overall Height: 1340mm
- Push Capacity: 1200kg

Spring Loaded Rotating Pallet Table

- The pallet elevator keeps the active layer of the load at or above waist height, eliminating bending and lifting.
- It proves highly effective at reducing the incidences of repetitive strain and back injury.
- The construction of the pallet elevator is a scissor type action with varying springs which can be adjusted for different load capacities up to 2000 kg.
- Turntable allows the operator to rotate the load with minimal stretching and reaching.
- Supplied standard with PVC protection screen
- No ground fixing required
- Load Capacity: 2000kg
- Table Diameter: 1110mm
- Lifting Range: 230-705mm
- Base Frame Size: 935x915mm (LxW)

Slip-on Roll Forklift Prong

Slip-on Roll Prong suitable for fabric, cable and coil products. Can also be used for carpet handling, but usage is generally restricted to larger forklifts due to the extended load centre created by the length of the tines. These attachments quickly adapt to almost any forklift and require only the connection of a safety chain to prevent unintentional disengagement.

- Prongs are manufactured from solid steel
- Finish: Zinc Plated
- The safe working load (SWL) is measured at 1400mm load centre
- SWL: 510kg
- Prong Diameter: 70mm
- Length: 2800mm
- Fork Pocket Size: 190x65mm
- Fork Centres: 345mm
- HCG: 845mm

The Edge – Electric Pallet Truck

- The function of driving with the handle in the vertical position helps when working in confined areas and with a short body length of only 380mm makes the truck extremely compact and ideal for use in retail stores, elevators and delivery vehicles.
- The handle of the truck is supported by an air spring and the handle returns to its vertical position smoothly.
- Strong and compact structure ensures extreme durability but with an overall unit weight of only 123kg
- The Edge pallet truck comes standard with a built in security function where a pin can be set and the pallet truck can only be used once the pin is entered making it ideal for use in retail stores only giving authorised staff members use of the machine.
- Emergency stop button with a horn and reverse signals
- Electric drive and electric lifting and lowering of the pallet.
- The Edge is equipped with a maintenance-free 24V/24Ah Lithium battery with optional different capacities for various applications; with its fast charging feature the Edge works as easy as a hand pallet truck and virtually maintenance free. The battery weighs only 4.6kgs making it ideal for quick battery change over so there is no downtime with charging.
- Load Capacity: 1500kg
- Tine Size: 60x142x1070mm
- Length of Tines: 1185mm
- Overall Size: 1530x685mm (LxW)
- Lowered Height: 80mm

Pallet Racking Column Guards

- Pallet Racking Column Guards are a highly effective solution for preventing damage to racking and inventory by forklifts.
- No matter how good your forklift drivers are, there will always be some time when an accident or mistake happens when they crash into the pallet racking.
- You can avoid major injuries and pallet rack damage by installing these protection guards.
- Damage and failure not only causes serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.
- Conforms to relevant Australian Standards
- Overall Size: 400x220mm (HxD)
