Scissor Lift Trolleys

These units help take the strain out of loading and unloading items from raised levels. The table is elevated by a pump action foot pedal and smoothly lowered by a hand operated release trigger. The double scissor model, gives the added advantage of elevating loads of up to a height of 1575mm.

- Foot operated hydraulic operation
- Lever release control
- Safety overload bypass valve
- Positive braking system on rear wheels
- Durable powder-coated finish
- Stepless rate of lowering regardless of load weight
- The 150kg version has a foldable handle as per image

Pallet Racking End Protectors **STORMAX**

Pallet Racking End Protectors are a highly effective solution for preventing damage to racking and inventory by forklifts.

No matter how good your forklift drivers are, there will always be sometime when an accident or mistake happens when they crash into the pallet racking. You can avoid major injuries and pallet rack damage by installing these protection guards.

Damage and failure not only cause serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.

- Single Bay End Protector to suit 838mm frame
- Double Bay End Protector to suit 838mm frame + 430mm space + 838mm frame
- Conforms to AS4084:2012
