

The CBC200 IBC & Pallet Lifter has been designed to safely lift an IBC container or pallet by overhead crane.

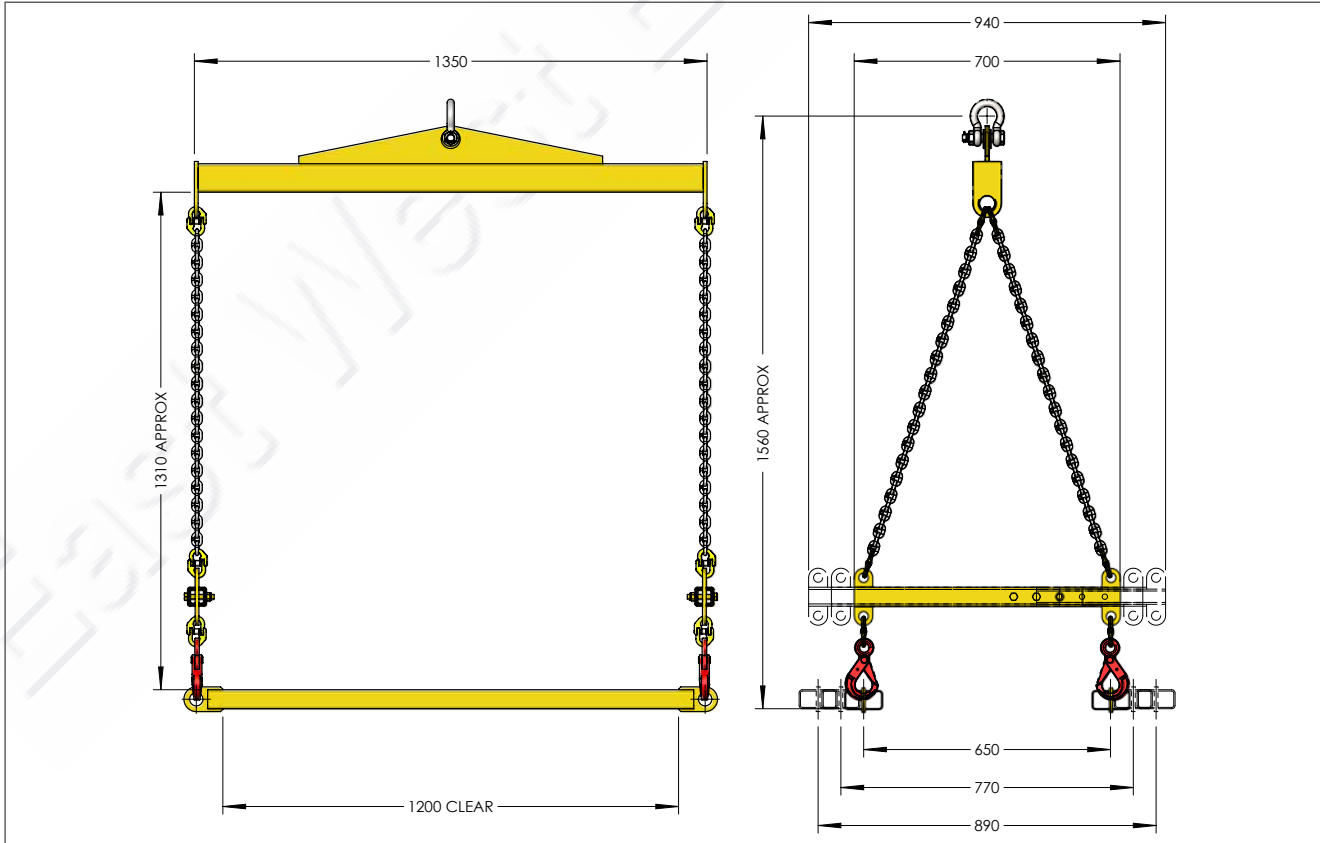

Supplied with four lifting chain assembly, two lower adjustable spreader beams, four 2T latch lock hooks and two lifting forks.

The lower spreader beams are adjustable to 3 positions to suit varying pallet sizes by moving the extendable arm in position. The extendable arm is locked in position via a high tensile bolt.

Designed and certified to all relevant Australian Standards.

The Standard finish is painted enamel in ‘Safety Yellow’.

Working Load Limit (WLL)	2000kg
Load Centre	675mm
Unit Weight	55kg
