

Type CKM10 Concrete Kibble

Concrete Kibbles have been designed for easy transfer of concrete on site by overhead crane.

The type CKM10 Concrete Kibble has a volume capacity of 1.0 cubic metres. This lightweight, yet heavy duty Kibble, can be used for both bottom or side discharge with the use of the adjustable chute. This unit is lever operated from either side, allowing flexible operation. The unit has been fitted with Forklift pockets for transport purposes about the work site. Also available in 0.5 cubic metre capacity units.
