

Hoists & Lifting Equipment

See this product on page 130 of the MHA catalogue

Chain Blocks

Vital is a Japanese brand which is globally recognised for their high quality products. Their range of chain blocks are suited for many applications in the mining, construction, industrial and automotive industry. They have proven to be an economical method to lift heavy loads with ease. The capacities vary from 0.5 tonne to 20 tonne and all chain blocks can be supplied with overload protection for added security of use.

All Vital models comply with AS1418.2.

Girder Clamps

Girder Clamps are used to safely suspend loads of many descriptions from girders (I beams).

Manual, Electric and Air hoist installations are examples of their wide capability of usage.

Mini Air Hoists

The Mini Series widens the range of applications in the light duty sector as a handy, flexible and light-weight hoist. The optional Mini Manipulator can be used to lift, lower, traverse and position loads in an easy, manual manner. The carrying capacities vary from 125kg to 980kg, with the 125kg model and the 250kg available with optional travel case.

Electric Chain Hoists

Hitachi's reputation for excellence in design, quality, reliability and performance has made this brand a global market leader. With over three decades of proven reliability throughout Australasia and an extensive operating range, Hitachi Electric Chain Hoists are suited to most applications. The Hitachi models vary from 250kg to 15 tonne capacity and are available in three or single phase, two speed or single speed while being tested to the Australian standards.

JDN Air Hoists

J.D. Neuhaus manufactures high quality, superior PROFI Air Hoists which are known for their robust designs. This makes their products suitable for tough industrial applications, even in continuous working processes. Safety features, as 100% duty rating and explosion protecting, are an important advantage for applications in hazardous areas.

Lift capacities up to 20 tonne

Electric Wire Rope Hoists

Designed for use on building sites and multi-storey units, these compact electric rope hoists are also suitable for a wide variety of applications in warehouses, storage areas, factories, etc.

See more information on next page

JDN Trolleys

JDN Trolleys are available for both the PROFI and Mining Air Hoists as a manual option (LN) for pushing or pulling by hand. Geared trolleys (LH) are also available for load movement by operating the hand chain mechanism and JDN also offers a motorised trolley (LM) which is powered by an air motor. The carrying capacities go up to 20 tonne.

Spring Balancer

Spring Balancers (Retractors) and Zero Gravity Balancers are designed to support heavy hand operated process tools and enables them to be operated with minimum effort. The balancers will automatically retract the tool to its initial position upon releasing it after use. An automatic arresting mechanism (ratchet lock) is available in some models. It allows setting retraction stops to keep the load suspended at predefined positions. The stops are automatically activated if the working load (tool) is moved back slowly. If pushed back fast, the mechanism remains inactive

Girder Trolleys

Girder Trolleys feature high quality construction for an economical price. They are available in either a push or geared variety and comply with all relevant Australian Standards.

Load capacities up to 10 tonne

Magnetic Lifters

Magnetic Lifters can be used in various industries for the lifting and moving of steel, engine parts, semi-manufactured goods and moulds. Due to its magnetic force, there is no need to use slings, clamps or other holding devices. This will eliminate the chance of damaging the lifted materials. Lift capacities up to 6 tonne.

ABOUT MHA PRODUCTS

At Manual Handling Australia (MHA), we have the largest range of manual handling and workplace materials handling equipment in Australia. This includes thousands of workplace and storage items suited to every workplace and lifting equipment and trolleys for almost every application. Our products aim to eliminate or reduce manual handling effort in the workplace, while boosting productivity and ensuring workplace safety.

MHA has over many years spent countless hours on product development and sourcing to ensure we can get products to make your workplace not only safer but more efficient.

MHA sources products from all over the world and sells them direct meaning there is no middle man or middle margin added giving you the best possible price and faster service. We also offer customised solutions with trolleys, lifters and many other materials handling equipment to ensure you have the perfect product to improve the safety and efficiency of your workplace.

MHA is dedicated to providing you with the highest quality products at the best possible price, with the best possible service. With a long and trusted reputation in the industry, MHA is a name you can rely on.
