

Mesh Cage Trolley with Drop Down Gate

- The Mesh Cage Trolley with Drop Down Gate is typically used for transporting goods & materials in a variety of industrial & commercial settings.
- The drop down gate feature allows for easy loading & unloading of items onto the trolley, as well as providing a secure containment for the items during transport.
- The cage construction of the trolley provides additional safety & security for the goods being transported, as well as protection for personnel working close to the trolley.
- The Drop Down Gate Cage Trolley can be particularly useful in warehouses, factories & other industrial environments where heavy or bulky items are moved around frequently.
