

Pedestrian Handrail Barrier System

Our modular pedestrian barrier system is very easy to install with 2 metre long rails to form a continuous barrier or can be cut to your desired length. The 950mm high posts simply lock together with pre-fitted couplings.

Our system uses rounded corners which allow you to have a continuous handrail along winding passageways and around corners.

- No welding required, easily assembled and versatile
- Made to Australian Standards AS 1428.1:2021 and AS 1657:2018
- Powder coated yellow Post and Rail
- Hot Dipped Galvanised Cast Iron Connectors and Base Flange
- Post Rails: 48 (D) x 950mm
- Horizontal Rails: 48 (D) x 2000mm
- All Post are supplied with 2 x M10 60mm Galvanised Dynabolts
