

Dumpster MegaDumpers

- MegaDumpers® provide a solution for emptying larger bins weighing up to 750kg
- MegaDumpers® are based on the proven tipping action of the Dumpmaster® and represent one of the safest, most efficient, and easiest to use bin emptying solutions in the world
- Originally designed for tipping 660 and 1100 litre bins weighing up to 750kg, the MegaDumper can tip to any height from 700mm to 5 metres or more, and comes standard with full-cage guarding
- Standard tip heights from 1.2m to 1.8m but can be built economically to any height
- Standard machine are built to suit all wheelie bins, from 60L, 80L, 120L, 140L, 240L up to either 660L or 1100L wheelie bins.
- All cradles require absolutely no clamping, and come with a simple retainment system which needs almost no input from the operator
- Custom cradles available to suit other bins and drums
- MegaDumpers® are available with 1-phase, 3-phase, air or battery power packs. Battery-powered tipplers have a sealed battery and an industrial-quality 'float' charger built in
- Available with either bolt down lugs or four castors, 2 with brakes
- Industrial grade galvanised frame
- Suitable for indoor or outdoor use
- Guarding includes a swing-up door with solenoid operated door lock, preventing all access to moving parts while machine is in operation. Machine is also immobilised while door is open
- Machine can be specified to meet AS/NZ 4024:2014 safety requirements. This includes a double door lock system, an in-built electronic evaluation unit, and comprehensive array of additional guarding panels.
