

## Pedestrian Safety Barriers

- The ECO Safety Rail is a 1m high handrail system designed to keep personnel from straying into harms way.
- It is a flat pack modular barrier system that comes in 3m kits that simply lock together with couplings to form a continuous barrier at your desired length.
- This system uses round corner elbows which allows you to have a continuous handrail along winding passageways and around corners.
- It's easy to order and install – Start with a STARTER BAY, add as many ADD-ON BAYS as you require, and finish it with an END-BAY.

### Optional Kickplates

The 100mm x 6mm kickplate accessory is easily adapted providing protection against obtrusions into passageways. Kickplates are essential on the edge of elevated walkways and platforms that are more than 2m above floor level.

### Features

- Material – mild steel
- Finish – powdercoated yellow
- Height – 1m
- Fully modular
- Unique 'anti-wobble' stanchion
- Comes in kit form – all fixings included
- Fast assembly time – Easy to install
- Complies with AS1657-2013
