

Truck Container Load / Unloading Ramps

These truck ramps are made for loading and unloading containers while the container is still on the truck or trailer.

Truck ramps are a quick and easy way to load and unload containers and trucks and saves the cost of having the containers side-unloaded onto ground level.

This truck ramp is a manually operated hydraulic controlled unit which means no power is required with quick and easy operation to raise and lower the ramp to the desired levels.

Specifications

- Capacity up to 8 tonne
- Great solution to loading/unloading trucks or shipping containers while still on the truck
- Ideal sized top flat deck area so forklift can level to load/unload first row of pallets in truck or container
- Simply moved around yard by safely lifting tail flap and pushing to move around on the tyres
