

2 Tonne Tow Tug

This 2 Tonne Electric Tow Tug has been designed for the safe, economical transportation of goods in line feed applications and offers safe and reliable operation coupled with flexible steering.

The unit has a rated traction of 500N, and can handle a gradient of 6% while laden.

It features a maximum speed of 7kph and of course the automatic power-off function works when the driver leaves the truck.

The 24V battery is rated to 210Ah while sideways battery compartment facilitates easy replacement. Battery charger is supplied standard.

Shock-proof, non-slip pedal heightens operator safety while reversible cushions at rear reduce fatigue for ergonomic operation. Warning lights are included for added site safety.

ABOUT MHA PRODUCTS

At Manual Handling Australia (MHA), we have the largest range of manual handling and workplace materials handling equipment in Australia. This includes thousands of workplace and storage items suited to every workplace and lifting equipment and trolleys for almost every application. Our products aim to eliminate or reduce manual handling effort in the workplace, while boosting productivity and ensuring workplace safety.

MHA has over many years spent countless hours on product development and sourcing to ensure we can get products to make your workplace not only safer but more efficient.

MHA sources products from all over the world and sells them direct meaning there is no middle man or middle margin added giving you the best possible price and faster service. We also offer customised solutions with trolleys, lifters and many other materials handling equipment to ensure you have the perfect product to improve the safety and efficiency of your workplace.

MHA is dedicated to providing you with the highest quality products at the best possible price, with the best possible service. With a long and trusted reputation in the industry, MHA is a name you can rely on.
