

Driver Exclusion Zone Cage

The Driver Safety Zone Cage is a highly visible, designated area that provides a safe place for drivers to wait and stand clear while vehicles are moving or being loaded and unloaded. It helps protect against goods toppling from height, significantly reducing the risk of accidents and promoting a safer work environment. Ideal for warehouses, distribution centres, loading docks, industrial facilities and more.

- Caged sides and roof offer maximum protection
- Strong steel mesh roof, rated to withstand the impact of a 1,250 kg load dropped from a height of 800mm above
- Compliant manufactured strictly in accordance with Australian Standards
- Bolt together construction, easy to install, flat pack assembly and disassembly
- Bolt to floor design
- Self closing outward opening gate, adjustable 90° locking/stop Hinges
- Galvanised steel construction with a powder coated yellow finish for durability and use outdoors
- Supplied with safety signs, driver safety zone, stop and watch out for forklift opening area
- Small footprint exclusion zone than standard market cages
- Mesh: 50x50x6mm mesh panel on top and sides
