

## A-Frame Rigging Racks

The A-Frame Rigging Storage Rack offers a reliable way to organise and store rigging equipment such as chains, slings, shackles, hooks, and clamps when not in use. Its raised base keeps gear off the floor and easily accessible, while the robust frame is designed to withstand demanding work environments. Designed with multiple handling options and optional castors, it delivers practicality, versatility, and improved safety on-site.

- Hanging hooks are designed to keep your rigging tools neatly stored and organised
- Sturdy base elevates your equipment, keeping it off the floor
- Robust 'A' frame design ensures excellent stability
- Equipped with fork pockets and crane lugs for easy transport by forklift or crane
- Removable wheels provide full manoeuvrability for easy relocation
- Ideal for rigging equipment storage in industrial environments
- Optional storage tray available (V7577) for added convenience
- Supplied flatpack for efficient transport
- Powder coated blue finish
- Working Load Limit: 1000kg
- Fork Pocket Size: 140x90mm
