About MHA Products

At Manual Handling Australia (MHA), we have the largest range of manual handling and workplace materials handling equipment in Australia. This includes thousands of workplace and storage items suited to every workplace and lifting equipment and trolleys for almost every application. Our products aim to eliminate or reduce manual handling effort in the workplace, while boosting productivity and ensuring workplace safety.

MHA has over many years spent countless hours on product development and sourcing to ensure we can get products to make your workplace not only safer but more efficient.

MHA has branches in Brisbane, Sydney and Melbourne and we service customers nationally from those locations.

MHA sources products from all over the world and sells them direct meaning there is no middle man or middle margin added giving you the best possible price and faster service. We also offer customised solutions with trolleys, lifters and many other materials handling equipment to ensure you have the perfect product to improve the safety and efficiency of your workplace.

MHA is a family owned company for over 25 years which means that dealing with us is dealing with someone that cares and wants to exceed your expectations and do that extra bit to make our customers happy.

MHA has over 3000 products in this catalogue and for more images, details and videos please visit our website. If you would like a technical sales person to visit your site give us a call or send us an email to arrange a suitable time.

MHA is dedicated to providing you with the highest quality products at the best possible price, with the best possible service. With a long and trusted reputation in the industry, MHA is a name you can rely on.

MHA not only stocks a great range of standard products but we can also manufacture custom items to suit your specific requirements. If you can't find the product or solution you're looking for, simply let us know – we'll tailor and design a product for your exact business needs with everything from specialised trolleys, stillage and storage cages, scissor lift tables, conveyor systems, drum handling equipment,

We look forward to servicing you with your requirements and helping you to make your companies workplace not only better but safer and more efficient.

Delivering Australia Wide Daily!

The MHA Salas Team

Instant 30 Day account for government department orders

MHA Products delivers Australia wide every day of the week (excluding weekends). Delivery is also available to other countries via our preferred carrier TNT Express or we can ship on your nominated carrier.

Haven't bought from MHA before?we've made it easy for you.

Simply fill out this priority order form and fax or email it to us and your order will be on the way!

Self Levelling Shelf Trolley

- This trolley has an innovative design in which the top platform automatically adjusts to maintain a safe working height as weight is added or taken off.
- Makes work operations faster, safer and more efficient by reducing manual exertion and bending.
- Ideal for use in supermarkets, liquor and hardware stores
- At 90kg, the platform is at the lowest position.
- Trolleys are nestable for compact storage
- Electro galvanised finish
- Rubber castors 2 x swivel, 2 x swivel with brake

Custom Trolleys

MHA offer customers a wide range of custom trolleys to suit their particular manual handling problems and workplace needs. This means that if any of our existing range doesn't quite meet your specific requirements, we can tweak one, or combine styles to create a completely different and innovative trolley. These are some examples of our customised trolleys.

General Purpose Trolley (With Writing Shelf)

Durolla

н

X-Cart Folding Plastic and Aluminium Trolley

- The X-Cart is a collapsible trolley that can be used for hundreds of applications.
- It is ideal for use in the workplace, schools, home, office, hospitals, courier services, shopping malls, nursing homes an much more!
- It can be completely collapsed by the push of a button on the handle. The wheels are able to be removed by the push of a button and stored underneath for compact transport and storage.
- The X-Cart is supplied with one collapsible basket which will lock into place on either the top or bottom platform.
 The top platform can be folded back to allow larger items to be transported if required.
- Extra baskets are available for use on both platforms or up to 4 baskets can be stacked on the bottom platform.
- A robust foot pedal brake allows the X-Cart to be locked in position whilst loading or unloading.
- The injection moulded plastic and aluminium design means that whilst the X-Cart is lightweight it is still very robust and has a great carrying capacity.
- The basket fits foolscap suspension files, which is great for transporting documents throughout the office.
- The X-Cart can also be used with our standard No.7, No.10.No.15 tubs

Compact Ride-On Electric Materials Handling Tug

The Liftex ride-on compact electric tug is the ultimate manual handling solution designed for good's transport for trolleys and anything that is difficult to push or pull around in the hospital, aged care and industrial warehouse environments.

The Liftex Materials Handling Electric Towing Tug is a ride-on unit that doesn't compromise its small size for a ride. Its compact size allows it to be effective in confined spaces, whilst being able to turn on its self. With a very low centre of gravity, the risk of tipping is greatly reduced. Its two front steer wheels create exceptional stability across many rough surfaces.

Code	Push	Pull	Overall Size	Wheel Base

1000kg Liftex Smart Tow Tug

Great for moving dollies, trolleys and roll cages throughout the warehouse, workshop or shopping centres etc.

Compact design which makes it extremely maneuverable and easy to transport in vehicles. The smart and very compact design allows easy pulling operations in low duty applications on short distances. Pulling supermarket trolleys, baggage carts or trailers is getting faster and efficient in supermarkets, factories, hospitals or airports.

Max. 1000kgtowing force. Easy to operate and smart design. Easy battery exchange. External charger. Compact and robust drive axle. Standard non-marking solid tires for different applications. Adjustable tiller / Handle for safe ergonomics Smooth acceleration, Step less speed control through electronic controller. Battery discharge indicator protects the battery against deep discharges.

- Travel Speed: up to 6km/h
- Programmable speed controller
- Battery: 24v, 18Ah
- Motor: DC 24v, 300w
- Tyres: Solid 250mm
- Handle Height: 650-1050mm (adjustable)

Electric Scissor Lift Trolley (Double Scissor)

1100x600 460-1600 1340x660x1100

- With the centre drive wheel it makes it extremely easy to manoeuvre loads in narrow eisles or tight spaces.
- Comes complete with side cage as pictured . which can be easily removed if not required
- Includes centre wheel unit
- 4 x swivel castors with brake
- 2 x pneumatic centre drive wheels
- Batteries: 2x12V 33Ah
- Curtis Controller: 70A
- Motor (Driving): 400W
- Motor (Lifting): 400W

Code LT7640

Lifting Time: 17 seconds

Details

Electric Scissor Lift Trolley (with centre wheel)

Self Propelled Lift Table

- Self propelled electric lift table is for moving and lifting products, meaning that you can use one product for multiple uses
- Flexible handle makes steering easy
- Electro magnetic brakes
- Battery: 24v, 120Ah

Code	Load	Lifting	Table	Turning	Drive Wheel	Unit
	Capacity (kg)	Range (mm)	Size (mm)	Radius (mm)	Dia. (mm)	Weight (kg)
LT8770	1200	540-1300	1300x820	1500	250	446

Pneumatic Scissor Lift Table

- This pneumatic scissor lift table runs on air with no electrics or hydraulics used – great for pharmaceutical and medical areas as its extremely clean and quite operation
- Safe, clean and extremely low maintenance
- Rotating turntable can be mounted to the top of this if required

Sydney (02) 8865 1800

Brisbane (07) 3558 9700

Pallet Rotators Ring

- The rotator ring is popular due to its light weight and easy maneuverability.
- It can be moved easily by one person.

Suits Pallet Lift Tables

Code	Load	Overall Size	Unit
	Capacity (kg)	WxH (mm)	Weight (kg)
P1066	2000	1000x65	36

Pallet Turntable Disc

- The paldisc is designed specifically so that pallets can be placed on or removed from the turntable using only a hand pallet truck
- Lifting lug screws into the centre of the Paldisc and makes transportation of the unit easy.

Code	Details	Load Capacity (kg)	Overall Dia. (mm)	Overall Height (mm)	Unit Weight (kg)

Bishamon Pneumatic Rotating Pallet Positioner (For Same Weight Pallets)

- Bishamon automatic work positioners are the modern way to manually load and unload pallets.
- They improve efficiency and reduce injury by bringing the level and location of the top of the load closer to the person doing the work.
- Pallet loading and unloading time can be reduced by 40%, thereby substantially increasing productivity
- Self leveling design automatically keeps the top of the load at a convenient working height
- Rotator ring with integral finger guard eliminates reaching and stretching
- Secured ball bearing centre pivot of the 1092mm diameter rotator ring provides smooth, even rotation
- EZ Loaders arrive at your facility fully assembled just add air!
- Rotator Ring Diameter: 1092mm
- Minimum Self Levelling Capacity: 113kgs
- Maximum Self Levelling Capacity: 1588kgs

Bishamon Pneumatic Rotating Pallet Positioner (For Varying Pallet Weights)

The most advanced pallet positioner available!

- EZ Loaders are designed to eliminate worker bending by automatically raising and lowering pallets during loading or unloading without the use of mechanical springs, motors or hydraulics.
- The new EZ loader can now handle a wide range of weight capacities from 110 kilos to 1800 kilos.
- The EZ Adjust knob a three position knob that allows adjustment of the collapsed capacity without changing the air pressure.
- EZ Loaders also allow easy pallet rotation for near-side loading so the worker does not have to reach or strain.
- As the load weight changes, the EZ Loader automatically adjusts, keeping the top of the load at a convenient working height.
- The patented pneumatic system found only on the EZ Loader has proven to be the choice of industry professionals worldwide.

EZ adjust knob provides up to 550kgs of capacity adjustment with the turn of a knob

Patented self-contained pneumatic system offers unsurpassed performance

Rollers are entrapped in the base frame and platform for added stability

Code	Details	Load Capacity (kg)	Rotator Ring Dia. (mm)	Lifting Range (mm)	Base Frame Size (mm)	Unit Weight (kg)

Spring Loaded Rotating Pallet Tables

- The pallet elevator keeps the active layer of the load at or above waist height, eliminating bending and lifting.
- It proves highly effective at reducing the incidences of repetitive strain and back injury.
 The construction of the pallet elevator is a spisser type action with yanging environment which are
- The construction of the pallet elevator is a scissor type action with varying springs which can be adjusted for different load capacities up to 2000 kg.
- Turntable allows the operator to rotate the load with minimal stretching and reaching.
- Supplied standard with PVC protection screen
- No ground fixing required

Code	Details	Load Capacity (kg)	Table Diameter (mm)	Lifting Range (mm)	Base Frame Size LxW (mm)	Unit Weight (kg)

Rotatable Electric Lift Table

- The pallet elevator is electric up and down via foot pedal and manual rotating top
- It is ideal for varying weight pallets as there is no need to change springs
- Turntable allows the operator to rotate the load with minimal stretching and reaching while controlling the up/down operation via the foot pedal controls
- Can be easily moved around factory with a forklift
- No ground fixing required
- Power: 240V

Foot Pedal to raise and lower platform Watch a video of this in operation on our website here, www.mhaproducts.com.au/LT7050 Lifting Table Unit Load **Base Frame** Code Capacity Range Diameter Weight Size LxW (mm) (kg) (mm) (mm) (kg) LT7050 2000 300-710 1110 935x915 175

Powered Rotatable Electric Lift Table

- The pallet elevator is electric up, down and rotating top via pendant control
- It is ideal for varying weight pallets as there is no need to change springs
- Powered Rotation in both directions which can be set to rotate continuously.
- · Can be easily moved around factory with a forklift
- No ground fixing required
- Power: 240V

Low Profile Pallet Lift Tables

- Many applications require the regular loading and unloading of palletised goods.
- Repetitive lifting and stretching can be time consuming and hazardous.
- Using pallet lift tables elevates pallets to the optimum lift height reducing the risk of repetitive strain injury and increasing productivity.
- Supplied with entry ramp to allow pallet truck entry
- Can be supplied with optional rotator ring
- Tables are specially made for handling pallets, no need for a pit or load ramps
- · Upper platform fitted with safety perimeter to prevent descent on contact with obstructions
- 24v control box with UP and DOWN buttons and emergency stop
- External power pack equipped with a relief valve against overloading and a compensating flow valve for controlling lowering speed
- Power Supply: 240v (3 phase 415v available if required)
- Hose burst safety value to stop the lift table lowering in case of hose breakage
- Removable lifting eyes to facilitate handling and installation of the lift table
- Oil-less bushings on pivot points

Easy to use

Lifting & Handling Equipment

Super Low Profile Lift Tables

- These lift tables achieve a super low closed height, eliminating the need for a pit installation
- · The upper platform is fitted with a safety perimeter to prevent descent on contact with obstructions
- 24v control unit with up/down buttons and emergency stop
- Power supply is AC 415V/50HZ/3phase
- The external power pack is equipped with a relief valve against overloading and a compensated flow valve for controlling lowering speed
- Hose burst safety valve which stops the table lifting in case of a hose breakage

Electric Scissor Lift Tables

Lift tables can be applied in many work places to increase productivity and safety. Loads can be elevated or lowered to optimum heights at the push of a button.

- Standard Features
- Heavy duty design and construction
- High quality European power packs
- · Suitable for on floor applications or in floor pit applications
- Self lubricating bushings on pivot points
- Removable lifting eyes to facilitate installation
 and maintenance
- 240V power supply (3 phase available as an option)
- Upper platform fitted with aluminium safety bar preventing descent on contact with obstructions
- Low volt (24v) control box with up-down buttons.
- Internal power pack equipped with relief valve against overloading and compensated flow valve for controlled lowering speed
- Heavy duty cylinders with drainage system and check valve to stop the lift table lowering in case of hose burst
- Safety clearance between scissors to prevent trapping during operation.
 - Push button pendant control with up, down and emergency stop

Optional Accessories for Scissor Lift Tables

As well as the following optional accessories, MHA has the capability to manufacture custom solutions for your application. Give us a call on 1800 750 900 to discuss!

Conveyor Bed

Great for use in applications where the goods can be raised then moved onto a bench or production line with ease.

Protection Curtain

These curtains protect the tables working mechanisms from dust, dirt and debris. The bellows are suitable for indoor and outdoor applications. These curtains can also be made with a chain mesh to give extra protection from objects falling into the working area of the lifter.

Side Barrier Rails

We can create a railing which can be used as a goods lift for persons or to bridge the gap between levels. We can create a full railing barrier with a swing open door if required. The up/down controls can be mounted at operater waist height so that they can control from lifter platform level.

Raise and Tilt Platform

The lift table can be fitted with a hydraulic tilt platform with a tilt angle up to 90 degrees. Great for tipping objects into a pit or bin.

Round Turntable

We can mount a turntable to the top of the lift table which is great for putting pallets or objects on with ease of turning for the operator.

Forkable Frame

By mounting the lift table on a frame or blocks as shown in red, you can then move the table easily using either a forklift or pallet truck.

Trolley - Wheels Mounted We can fit heavy duty lockable castor wheels to the base frame which would convert your lift table into a moble unit.

Hinged Loading Flap

This can be mounted to the lift table to bridge the gap between loading docks, work areas or vehicles.

Side Barrier Rails

We can create a railing which can be used as a goods lift for persons or to bridge the gap between levels. We can create a full railing barrier with a swing open door if required. The up/down controls can be mounted at operater waist height so that they can control from lifter platform level.

Side Barrier Rails

We can create a railing which can be used as a goods lift for persons or to bridge the gap between levels. We can create a full railing barrier with a swing open door if required. The up/down controls can be mounted at operater waist height so that they can control from lifter platform level.

Solid round top with side protection curtain (LT5099)

Armlift Lift Tables

Armlift's unique patented function offers an ergonomic workplace with ample foot space, comfortable working positions and unrivalled accessibility. Armlift is the perfect choice for almost all workplaces that handle goods and components on pallets, in baskets or containers.

Loads are lifted with parallel arms that can also tilt the load in a single mechanism making Armlift an economical alternative to conventional tables which require separate lift and tilt mechanisms. Because the Armlift tilts down it is especially suited for use with high pallets, oversized baskets and containers.

Visit www.mhaproducts.com.au/Armlift-Lift-Tilt-Tables for more information and operational video

Electric Stacker with Magic-Eye

The Quikstak SP15 Series is a range of heavy-duty self-drive pallet stackers, with a capacity of 1500kg and lift heights from 1.6 metres to as high as 5.6 metres. Optionally equipped with 'magic-eye' automatic height adjustment, the SP15 is suitable for warehousing, despatch, manufacturing, stacking and general materials handling operations, in any industry.

The SP15 is powered by a new self-drive unit, with a brushless electric motor and intelligent regenerative braking system. Combined with a bank of lead-acid batteries delivering 200Ah, this permits all-day use in even the most demanding of environments.

Both the straddle legs and forged forks on the SP15 are width-adjustable, allowing the stacker to lift all common types of pallet, as well as traverse warehouse aisles as narrow as 1200mm. The tiller includes infinitely-variable drive controls, ergonomic raise/lower buttons and a safety sounder, all accessible with both hands.

Like all Quikstak S-Series products, the SP15 complies with a range of international quality and safety standards, and is manufactured in an ISO 9000 certified plant. It is the only heavy-duty, highreach pallet stacker available which has been specifically optimised for Australasian conditions. Standard lift height 1600mm (optionally as high as 5600mm) 🔨

Built-in limit switch and overload protection valve

Ergonomic tiller with dual-hand controls:-Forward/Reverse (infinitely-variable)-Raise/Lower- Safety sounder- Reversing safety device

Robust plastic fascia:-Battery Indicator- Hour, Meter- Emergency Stop- Key Switch

Manouverable design, vertical steered_ drive wheel and 1655mm turning radius

Brushless DC motor with _____ electronic control system

> Auto deceleration with intelligent kinetic energy recovery system (KERS) to maximise battery life

1500kg rated load capacity

Manufactured and certified to international quality assurance and safety standards:- Conformité Européene- EN ISO3691-1:2012- EN1175-5:1998/A1:2010- EN16307-1:2013-Based on directive 2006/42/EC- EN 12895:2000- Based on Directive 2004/108/EC- IQNet / CQC / CNAS

Optional 'magic-eye' infrared - load height adjustment for ergonomic stacking

> Forged forks with adjustable width from 200mm-800mm

24v 200Ah flooded lead-acid battery with external charger

Straddle legs with adjustable width from 1132mm-1532mm, ideal for tight warehouse aisles

() Brisbane (07) 3558 9700

The way the magic-eye works

Unloading timber onto conveyor using auto infra-red eye sensor

Sydney (02) 8865 1800

As load decreases the height automatically raises to the conveyor height

These are our standard model basic specifications listed below. Please refer to our website for full detailed specifications on each model and video of these in operation.

The standard model lift height is 1.6 metres however other custom lift heights are available up to 3 metres with the S10 and SP10 models and up to 5.6 metres with the SP15 model. Please contact us for a quotation on your particular requirements.

Code	Lift Capacity (kg)	Travel Speed	Overall Size WxLxH (mm)	Lift Height (mm)	Fork Length (mm)

The Edge - Electric Pallet Truck

- The function of driving with the handle in the vertical position helps when working in confined areas and with a short body length of only 380mm makes the truck extremely compact and ideal for use in retail stores, elevators and delivery vehicles.
- The handle of the truck is supported by an air spring and the handle returns to its vertical position smoothly.
- Strong and compact structure ensures extreme durability but with an overall unit weight of only 123kg
- The Edge pallet truck comes standard with a built in security function where a pin can be set and the pallet truck can only be used once the pin is entered making it ideal for use in retail stores only giving authorised staff members use of the machine.
- Emergency stop button with a horn and reverse signals
- Electric drive and electric lifting and lowering of the pallet.
- The Edge is equipped with a maintenance-free 24V/24Ah Lithium battery with optional different capacities for various applications; with its fast charging feature the Edge works as easy as a hand pallet truck and virtually maintenance free. The battery weighs only 4.6kgs making it ideal for quick battery change over so there is no downtime with charging.

Capacity up to **1500kg** and ability to overcome ramps up to **4/16%** (loaded/unloaded) makes the truck suitable for work in loading docks and on delivery operations in different conditions

Removable Lithium Battery

Pin can be set so only selected personnel can use the unit

Handle is supported by an air spring so that the handle returns smoothly to the vertical position

2000KG Pallet Truck With Load Scales

- Our scale pallet trucks are extremely reliable and highly accurate in measuring your pallet weight.
- This fork truck has a totalising function which adds up multiple pallet weights giving the total weight per shipment or order.
- The weighing unit uses four AA batteries which give approx 4200 weighting actions
- The unit gives a low battery warning and shuts off after 3 minutes
- The digital display can be read from any angle in ambient light conditions
- Optional scale printer unit available on request
- Scale Increments: 1kg
- Scale Functions: Zero correction, gross/net weight, total weight

Lifting & Handling Equipment

Slip-On Roll Forklift Prong

Slip-on Roll Prong suitable for fabric, cable and coil products. Can also be used for carpet handling, but usage is generally restricted to larger forklifts due to the extended load centre created by the length of the tines.

These attachments quickly adapt to almost any forklift and require only the connection of a safety chain to prevent unintentional disengagement.

- Prongs are manufactured from solid steel
- Finish: Zinc Plated
- The safe working load (SWL) is measured at 1400mm load centre

Code	SWL (kg)	Prong Diameter (mm)	Length (mm)	Fork Pocket Size (mm)	Fork Centres (mm)	HCG (mm)	Unit Weight (kg)
F2992	510	70	2800	190x65	345	845	163

Crane / Forklift Spreader Beam

The Spreader Beam is a unique multitasking Beam which can be used by Crane or Forklift to lift long loads. Using a Crane, loads can be lifted via the centre single hook point (as a 'Lifting Beam'), or end lifted using a 2 leg Chain Sling (as a 'Spreader Beam').

If lifting by forklift, the 600mm long slipper pockets allow for fast and safe connection to the truck.

The Spreader Beam load connection points are adjustable to 3 positions by moving the extendable arms

FL2439

each end. Both extendable arms are locked into position via safety pins. The unit is supplied standard with a safety swivel hook each end.

The extendable arms are zinc plated with the main body painted in 'safety orange'.

Lifting & Handling Equipment

2000KG Automatic Pallet Hook

The automatic pallet hook, type PH2908, is self-levelling for ease of operation.

An internal spring mechanism ensures the lifting eye is in the correct position to keep the tines horizontal, eliminating the need to reposition the lifting ring.

Enclosed frame members protect the operator from moving parts.

The Pallet Hook has been designed & certified in accordance with relevant Australian Standards

Self levels

automatically

3000KG Fork Spreader With Load Guard

Safely pick up extra wide or flexible loads without the risk of damage to products such as plasterboard, roof sheeting, timber, plastic tubing etc. The F2985 fork spreader evenly distributes the load over the length of the attachment with a load back guard to help secure high loads. The slip-on attachment is secured to the lift truck by a safety chain.

- Capacity measured at 600mm Load Centre
- Overall Size: 3000x710x1210mm (WxHxD)

Code	Capacity	Spreader	Spreader	Load Guard	Pocket	Pocket	Tine	Unit

1 Tonne Gantry Crane

Designed for transporting and positioning materials both indoors and outdoors.

These mobile gantry cranes are ideal for use in workshops using vacuum lifters, chain hoists, lever blocks and air hoists.

- Solid steel construction •
- Electric hoist pictured is sold seperately to gantry crane •
- Quick and easy setup
- Large lockable castors
- Height adjustable 3 metres - 4 metres

Lifting & Handling Equipment

Electric Chain Hoists - Portable

These portable hoists are compact, lightweight 240 volt single phase electric chain hoists. They conveniently come in a durable travel case which makes them the ideal portable solution for lifting, lowering and handling loads up to 500kg. All models are tested to the Australian standards.

Features

- Manufactured to comply with AS1418.2
- All models suitable for 240 volt, 50 Hz single phase power supply
- Available in 80kg, 125kg, 250kg and 500kg capacities
- Duty cycle rated at 30% ED with 180 starts per hour
- 18 volt DC low voltage control for safe operation
- IP65 pendant control, dual speeds with variable speed slow control for raise and lower
- Overload protection clutch prevents damage caused by overloading
- All models are supplied as standard with 6 metre height of lift, a 5 metre pendant control, chain bucket and 3 metre power supply cable
- Upper and lower electrical limit switches
- Supplied with durable travel case

Electric Chain Hoists 415Volt, 50Hz

Electric Chain Hoists offer a great balance between quality and price. The models vary from 250kg to 2 tonne capacity and are all tested to the Australian standards. All hoists are inclusive of many features which makes them suited for most applications. Optional Motorised Trolleys are available to complete the package.

Features

- Manufactured to comply with AS1418.2
- IP65 pendant with 24 volt control for operator safety
- Overload protection clutch prevents damage caused by overloading
- Inclusive of DC Brake which automatically engages in the event of a power failure
- · Completely enclosed design to withstand harsh conditions
- Upper and lower electrical limit switches
- Grade 80 zinc plated load chain supplied as standard
- Motor thermal protection on all Pacific Electric Chain Hoists
- · Fuse protection provided for both primary and secondary control circuits
- IP54 protection rating on all electric hoists and trolleys
- Reverse phase protection relay on all models excluding 250kg
- Optional radio remote control

Hoists & Lifting Equipment

Chain Blocks

Vital is a Japanese brand which is globally recognised for their high quality products. Their range of chain blocks are suited for many applications in the mining, construction, industrial and automotive industry. They have proven to be an economical method to lift heavy loads with ease. The capacities vary from 0.5 tonne to 20 tonne and all chain blocks can be supplied with overload protection for added security of use. All Vital models comply with AS1418.2.

Mini Air Hoists

The Mini Series widens the range of applications in the light duty sector as a handy, flexible and light-weight hoist. The optional Mini Manipulator can be used to lift, lower, traverse and position loads in an easy, manual manner. The carrying capacities vary from 125kg to 980kg, with the 125kg model and the 250kg available with optional travel case.

Girder Trolleys

Girder Trolleys feature high quality construction for an economical price. They are available in either a push or geared variety and comply with all relevant Australian Standards.

Load capacities up to 10 tonne

JDN Air Hoists

J.D. Neuhaus manufactures high quality, superior PROFI Air Hoists which are known for their robust designs. This makes their products suitable for tough industrial applications, even in continuous working processes. Safety features, as 100% duty rating and explosion protecting, are an important advantage for applications in hazardous areas.

Lift capacities up to 20 tonne

houses, storage areas,

building sites and

Girder Clamps

Girder Clamps are used to safely suspend loads of many descriptions from girders (I beams)

Manual, Electric and Air hoist installations are examples of their wide capability of usage.

Electric Chain Hoists

Hitachi's reputation for excellence in design, quality, reliability and performance has made this brand a global market leader. With over three decades of proven reliability throughout Australasia and an extensive operating range, Hitachi Electric Chain Hoists are suited to most applications. The Hitachi models vary from 250kg to 15 tonne capacity and are available in three or single phase, two speed or single speed while being tested to the Australian standards.

Spring Balancer

Spring Balancers (Retractors) and Zero Gravity Balancers are designed to support heavy hand operated process tools and enables them to be operated with minimum effort. The balancers will automatically retract the tool to its initial position upon releasing it after use. An automatic arresting mechanism (ratchet lock) is available in some models. It allows setting retraction stops to keep the load suspended at predefined positions. The stops are automatically activated if the working load (tool) is moved back slowly. If pushed back fast, the mechanism remains inactive

JDN Trolleys

JDN Trolleys are available for both the PROFI and Mining Air Hoists as a manual option (LN) for pushing or pulling by hand. Geared trolleys (LH) are also available for load movement by operating the hand chain mechanism and JDN also offers a motorised trolley (LM) which is powered by an air motor. The carrying capacities go up to 20 tonne.

Support Structures for Lifting Systems

A range of structural support systems are available for use with hoists and vacuum lifting systems

- All systems are designed and manufactured to • conform to AS1418 Crane Code.
- Capacities range from 100-2000kg (or as required).
- Each application is customized to suit existing site conditions and particular workplace requirements.

Jib Arm

- The jib arm consists of an easy move track and carriage which allows unimpeded access within the swing area.
- The jib arm can be column mounted, ceiling mounted or wall mounted.
- Column mounted jibs can be bolted to the floor or used with a forkliftable base.

Floor mounted column with swivelling jib arm

Overhead Travelling Crane

Wall mounted with swivelling jib arm

Ceiling mounted column with swivelling jib arm

Overhead travelling crane systems are available for use where greater flexibility is required. Travel rails are connected to columns mounted on the floor or connected to roof purlins subject to weight loading.

Knuckle jointed jib arm

Vacuum Lifters: Improving Workplace Efficiency

Heavy objects can be moved virtually weightlessly – with only one hand. This virtually eliminates risk of manual handling strain caused by bending, lifting and twisting.

Lifting & Handling Equipment

Delivering Australia Wide Daily

Any occupation requiring the repeated lifting, moving or conveying of loads up to 150kg within a specific area will benefit from the implementation of vacuum lifting.

Virtually any load can be lifted using vacuum technology. Suction heads may consist of a single suction cup or multiple suction cups on spreader bar. The positioning may be fixed or variable. Long or wide loads can be lifted using an extended reach control handle.

Minimise risk and streamline your work processes

Customisable heads means that you dont need multiple stackers and lifters for all of your equipment. Vacuum Lifters are the product for you!

Grabbing and lifting of loads is achieved by the creation of a vacuum within suction heads and a lifting tube. A vacuum pump is connected to the lifting tube via air hose.

134

SMI Vacuum Lifting Devices

The new generation of vacuum load lifters

Made in Germany

Are you considering efficient and effective accessories for handling your products?

Regardless of whether heavy equipment and machine parts have to be moved in your plant every day, or whether you have to transport difficult products such as sacks with the SMI handling system you can be certain to find an economic and proven solution for handling your loads.

Conveyor Equipment

Roller Conveyor System - Build Your Own System

MHA's full range of gravity conveyors provides the simple solution for moving all types of products in industries such as transport, distribution centres, container unloading & similar.

Roller conveyors are one of the most common types of conveyors applied in conveying flat bottom type products such as cases, boxes, pallets & trays. These kind of conveyors improve efficiency distribution & line links between different stages of production of your product.

Custom Sized Flexible Conveyors

MHA specializes in conveyor systems for loading and unloading trucks at distribution centres, warehouses, food preparation lines, order fulfilment, manufacturing, and retail stores. The Best/Flex Expandable Conveyor saves time and labour, and increase overall efficiency.

Flexible conveyors can be joined to make one continuous line in packing and production lines and come with plastic or metal skate wheels and plastic, rubber, steel or stainless steel rollers in both gravity and electric operated models. Our standard conveyor widths are 460mm, 610mm and 760mm however other sizes can be custom made to suit your particular requirements.

Simple to use, with a variety of sizes to choose from, we have a conveyor to suit whatever your workplace needs may be.

MHA's custom sized conveyors aid in establishing an efficient and productive workplace.

Great for unloading containers or small boxes

Flexible Conveyors: Speeding up your warehouse

Flexible and Expandable Conveyors

- Extremely versatile
- Flexible conveyor can be packed away when not in use
- Powered or gravity options
- Available in stainless steel
- Height adjustable
- Powered options have variable speed
- Join to make one continuous conveyor system
- Lockable castor wheels on each adjustable leg
- Package end stop comes as standard which can be removed if required or when joining conveyors together

MHA's custom sized conveyors aid in establishing an efficient and productive workplace.

Extremely versatile for moving goods and parcels around your workplace

Skate Wheel Conveyor Systems

These free rolling conveyors are ideal for moving all types of light packages with flat or semi-flat surfaces (cases, packages, crates etc). Their free rolling ability is particularly useful where long distances of travel are necessary with a minimum gravity decline.

Wheel conveyors are available in two types, steel wheels for mediumweight handling and nylon wheels for lightweight use. Both systems are interchangeable and offer a choice of widths and lengths.

Wheel conveyors work efficiently with a pitch (or axle spacing) of 75mm or 150mm, depending upon the type of goods to be handled. Wheel positions can be varied to suit individual requirements by adjusting the wheel spacers and by adding or removing wheels as required.

Wheel Conveyor Frame (65x 25x 2.5 channel) Available in both straight and curved sections, the side channel is made from 2.5mm thick material, folded into a 'C' section for strength.

The cross members are made from 2.5mm steel, formed and strategically welded into position to reinforce the section and provide a bed for the rigid support.

There are standard lengths for straight sections (1500mm and 3000mm) and curves (45 degree and 90 degree). Both are available in standard overall widths of 300mm and 450mm.

Sections interlock to form a positive and secure join between frames, allowing the flexibility to add or reduce sections as required. Straight sections incorporate a bar coupler at one end and a hook coupler at the other. Curved sections have universal couplers at both ends.

Superfree running skate wheels for empty carton movements

Powered Roller Conveyor Systems

Whether straight transfers, accumulation, around bends or through gates, powered roller conveyer with inbuilt accumulation has been proven in many industrial situations.

The basis of the system is the tough polyurethane belt, which enables each grooved roller to be independently driven from a common line shaft. Simple, yet providing the whole system with reliability and flexibility; plus minimum power consumption due to no loss of energy through skid friction. The only friction point is the long life acetal spools slipping on the line shaft during accumulation.

Chain Transfer The chain transfer allows boxes and items to be transferred sideways to another conveyor, packing area etc.

Linebrake A linebrake allows a series of rollers to lower accumulation pressure, or creates gaps between products.

Rollover Stop The rollover stop is a physical stop that comes up between the rollers to stop the product. They can be air operated or by a mechanical handle.

Powered Gate

The gate allows pedestrians access through conveyor lines. As the gate lifts up, the drive on the gate disengages

Industrial Belt conveyor system is used for moving coal in mines

Floor Pallet Conveyors

Pallet conveyors reduce use of forklifts in working areas therefore ensuring the safety of your staff in these areas.

Pallet roller conveyors are designed to handle everything from pallets and drums to work-in-progress containers.

Smooth transportation is provided through the contact between pallet and roller. Guide flanges on the supporting rollers ensure that the pallets do not move sideways on the conveyor.

Our pallet conveyors can be designed to suit a large range of pallets and can be integrated with stretch wrappers, lift tables and other pallet handling equipment.

Pallet conveyor mounted to the warehouse floor to transport pallets from the packing line to the pallet wrapping area.

P170 Job Station Industrial Ladder

More than just a platform stepladder, the P170 has a range of features aimed at improving safety and productivity.

- Massive 610 x 460mm platform deck
- Huge 170kg load rating
- Convenient carry handle
- Super strong tread design
- Multi-functional handrail
- Large robust feet
- Innovative brace and castor system (castors included)
- Huge platform area (610 x 460mm) adds comfort and stabilty
- New 'trapezoidal tread design' provides an incredibly strong tread to stile joint
- Multi-function handrail with optional 'DropLok' accessories converts a hand rail into a Job Station (15kg capacity)
- Fully reinforced polypropylene platform with metal rod inserts for optimal strength
- Diamond plate 'deck pattern' provides an anti-slip standing area
- Extra strong, heavy duty aluminium construction for superior durability
- Large anti-slip feet for maximum stability and durability
- Convenient carry handle allows for easy transport from job to job
- 360 castors for improved mobility and improved productivity
- Fully integrated bracing and castor system industry leading design (castors included)
- Made to AS/NZS1892.1-1

Ladderweld Access Platform: Modular Access System

The Modular Access System is the latest innovation from Australia's #1 Ladder Brand that allows you to turn your Access Platform into a temporary work platform that is customizable to your specific shape, length and height requirements. The modular design allows the user to customize the platform length at variable heights and shapes that suit the specific application or purpose. This system also increases safety and efficiency in the workplace.

This system can be used for a variety of uses such as in transport industries, aviation/ aircraft maintenance, manufacturing/ process industries, heavy equipment maintenance, material handling/stock picking, warehousing, defense and mining industries.

- The Modular Access System allows the work platform to be built into right angled shapes
- · Can be configured into any length work platform
- Platforms can be stepped up or down
- Highly manoeuvrable and light weight
- Features removable handrails for access to the work zone

The modular Access System is especially designed for high frequency and heavy duty use.

Ladderweld Access Platform

Bailey Ladderweld Access Platforms are designed for safe, easy and efficient use in warehousing, vehicle maintenance, mining, aviation and heavy industry workplaces.

- Access Platform 2-In-1 With Bonus Work Shelf
- Super strong 'fully welded' design fabricated from heavy duty aluminium
- Steel bracing under bottom tread and side bracing provides additional protection from impact damage
- 100mm deep treads improve safety and comfort when climbing
- Suited to 'high frequency' use
- Walk-thru' design for stock picking and access to mezzanine floors, vehicle access and warehousing
- Large 125mm wheels improved portability and 'easy glide' action
- Large stable work platform (safe and stable) 590mm x 800mm
- Manually operated braking system with high-vis powder coated activation arm helps minimize unauthorised access
- Two safety gates fitted (a 2 in 1 product allowing for walk-thru access)
- Toeboard on three sides (helps secure tools/accessories)
- Shelf included
- Made to AS/NZS 1892.1
- 170kg load rating
- Industrial duty rating for use on commercial sites
- Meets Work Cover requirements (safety gate + 900mm handrail, toeboard)
- Supplied as a 'flat pack' for optimal transporting however can be assembled on request - Please contact us for assembly cost

Mezzanine Pallet Safety Roll Over Gate

The mezzanine Roll-Over Gate is the ideal solution for providing ultimate personnel protection whilst allowing fork truck loading access to the Mezzanine Floor.

Our mezzanine Roll-Over Gate is permanently anchored at the loading edge of the Mezzanine Floor providing protection from the fall edge at all times. The Roll-Over Gate works on the principle of providing hand, knee and kick rails to either side of the palletized load by simply swinging the evenly balanced gate over the top of the load, protecting persons from the fall edge which eliminates the risk of fall injury.

8 Tonne Heavy Duty Container Ramp (Extra Long)

The R2908 extra long container ramp has an overall length of 3 metres (1.5 metres of which is horizontal allowing easy placement and removal of the first and second line of pallets in a container.

This ramp has been designed for fast positioning and removal with tine pockets on the side plus pop up tine slots in the top for front removal.The ramp has an enamel painted finish.

Comes standard with 100mm raised side plates which ensure the forklift remains on the ramp.

- -

Truck Container Load / Unloading Ramps

These truck ramps are made for loading and unloading containers while the container is still on the truck or trailer.

Truck ramps are a quick and easy way to load and unload containers and trucks and saves the cost of having the containers side-unloaded onto ground level.

This truck ramp is a manually operated hydraulic controlled unit which means no power is required with quick and easy operation to raise and lower the ramp to the desired levels.

Specifications

- Capacity up to 8 tonne
- Great solution to loading/unloading trucks or shipping containers while still on the truck
- Ideal sized top flat deck area so forklift can level to load/unload first row of pallets in truck or container
- Simply moved around yard by safely lifting tail flap and pushing to move around on the tyres

Side Shift Drum Palletiser

- The Side Shift Drum Palletiser is specially designed for moving drums and barrels from any position on a pallet.
- It uses a sliding side-shift arrangement allowing it to even be used for moving containers and drums placed in the centre of a pallet.
- The palletiser straddles the pallet and only requires access to one side, thus allowing pallets in confined areas to be kept against the wall even when unloading.
- When moving the drum onto another pallet, scales or the floor, the drum can also be moved to either side using the side-shift arrangement
- This unique design side shift drum palletiser can pickup drums from any position on the pallet, skid or bund -straddles beside and over the pallet
- Suitable for both steel and plastic drums
- The operator requires only 12kg of force on the handle to lift a 300kg drum

Spring loaded clamp to securely hold the drum

Drum Taps

- Models available for high or low viscosity liquids
- Adjustable faucets enable the user to adjust the outlet downwards without leakage
- Internal flame arrestor models available
- To suit 20 / 50 mm bungs

DT201 2" plastic drum taps to suit large 19 & 50mm bunds. Includes twin thread pattern. Suitable for detergents and oils.

DT101 High flow brass spring operated sliding gate tap with

replaceable teflon blade. Designed for heavy type non corrosive viscous liquids. 2" BSP.

DT640

High flow cast iron sliding action valve for nonflammable viscous products, oil, paint, treacle etc. 2" BSP.

Drum Pumps

DT630

- High-flow pump, 1 litre per rotation is attained using synchronised counter rotation rotors driven by dual H/D timing gears
- Suits 210 litre drums or tanks with cast iron bung nut Ideal for refuelling on and off road vehicles, large machinery and optional model for aircraft with modified filter-hose kit
- Complete with 2.5 metre PVC hose and spout for diesel and light oils up to SAE30

DT638

- Rotary drum pump for 60-210 litre
 drums
- 3 piece suction pipe with adjustable discharge spout
- Standard 2" BSPM polypropylene bung nut to suit drums
- 20 Litres per minute max flow
- Suitable for a range of chemicals, detergents and solvents
- (please check with our sales team to confirm compatibility with your liquid)

- 1.4 metre, non-kink hose
- Easy down stroke action
- Fitted with non drip nozzle and drain back holder
- Suits 20 litre steel oil drums

Gas Cylinder Cage

Heavy duty lockable cage suited for storage of up to 24 x 9kg BBQ gas bottles but can be used for many other storage applications including firewood at service stations where easy access and excellent security is a requirement.

- Tamper-proof lock guard prevents cutting of the padlock by bolt cutters, along with anti-tamper gate hinges
- Sturdy construction with bump rails to protect the high visibility mesh sides
- Stack 3 high when empty and 2 high when fully loaded
- Bolted mid shelf can be excluded during construction for storage of 18kg forklift gas bottles
- Sheet metal shelves allow easy sliding of cylinders to the back of the cage.
- Sheet metal roof provides weather protection
- Forklift provision is provided under the cage for transport around worksite
- Zinc finish for long life corrosion protection

Bulk Bag Filling Frame

The Bulk Bag Filling Frame saves hours of labour and reduces risk of injury. This frame is designed to safely hook open a bulk bag and fill with free-flowing bulk products such as sand and gravel, removing the need for the operator to hold the bag open or manually fill themselves.

Features:

- 4 safety swivel hooks hold bulk bag in position whilst filling
- Adjustable bag restraining chains position bulk bag at correct height
- 3 adjustable height settings to suit your operational requirements
- Fork pockets fitted for easy transport
- Optional clamshell gate (BFU250CS) for control over flow rate
- Optional spill guard (BFU250SG) prevents overspill
- Upper hopper assembly enamel paint finish. Support frame zinc finich
- 3 adjustable height settings
- Hopper Opening: 554 x 400mm

Containment & Spill Control

Floor Mount Box & Bin Tipper

The Floor Mount Box Tipper is designed to allow the effortless tipping of nally bins, chep boxes or wheelie bins.

Features:

- Allows for 130 degree rotation of almost any bin
- Suitable for forklift or hand pallet jack bin loading
- Operated by hydraulic lever control
- Supplied with side safety barriers
- Hydraulic power pack, 240-volt, 2.2kw
- Bin retainer fitted standard to suit mega bins
- Wheel guide fitted standard to retain 80/120/240L wheelie bins
- Tipping height approx. 900mm above floor
- 42 second cycle from ground to full tip to back to ground
- Available in model (BKN125SS) with stainless back insert
- Available as a fork carriage model on request
- Zinc finish
- Working Load Limit (WLL): 1000KG
- Rotation: 130 degrees
- Overall Dimensions: 1910x1555x1400mm (WxDxH)
- Overall Dimensions (at full rotation): 1910x1555x1400mm (WxDxH)
- Unit Weight: 500kg
- Fork Pocket Size: 185x60mm
- Fork Pocket Centres: 900mm

Can be customised to suit any application or bin type upon request

Battery Electric Wheelie Bin Tipper

Melbourne (03) 9115 9100

238

The Multi-Tip bin-tipper is everything a bin tipper should be - safe, economic, easy to use, versatile, and efficient.

Perfect for light industrial use to empty bins at schools, factories, recycling centres and more. These tippers are battery powered which have a sealed battery and an industrial-quality 'float' charger built in.

Specifications

Fast 20 seconds to empty a bin 1.6m tipping height Battery-powered with a sealed battery and an industrial-quality 'float' charger built in Suits popular bin sizes 80L, 120L, 140L and 240L, ٠ with no adjustment Castors, 2 with brakes Rugged powder coated frame Indoor or outdoor use Lockout key and two-hand controls for safety 2660mm • Simple plug in to charge overnight 2380mm View video of this in operation here www.mhaproducts.com/MT1600 1600mm 1015mm

Dumpmaster Bin Tippers

Dumpmaster wheelie-bin tippers are the ultimate solution to empty bins and drums weighing up to 300kg at virtually any height. The tipping action of a Dumpmaster is one of the safest, most efficient, and easiest to use systems in the world.

- Dumpmasters are highly versatile and can be used in numerous applications, ranging from emptying rubbish bins into skips to pouring food ingredients into hoppers or mixers.
- No matter what the application, Dumpmasters have proven to be safe, reliable and economical to operate, year after year.
- Dumpmaster bin lifters have a unique tipping action whereby bins are lifted straight up, and then gently rolled forward around the lip of the skip or hopper being emptied into.
- The basic design can be modified to suit a wide range of bin sizes, shapes, and weights.
- Standard drums and bins do not require clamping
 simply place on the cradle and press the 'Raise' button
- Dumpmasters can be fitted with multi-purpose cradles which can empty all standard sizes from 80 to 240 litre bins or even 80 to 360 litre bins with no adjustment
- These bin tippers listed below are our standard tipping heights however these can be made with tipping heights up to 6 metres
- Dumpmasters are Electric-Hydraulic bin tippers and are offered with a choice of 1-phase, 3-phase, battery or air-operated hydraulic power packs.

(Note: Air-operated systems are generally for use in hazardous environments only)

Operation couldn't be easier

Simply wheel the bin onto the cradle and press and the hold the up button. When the bin has emptied, press the down button.

- No need to strap or clamp the bin
- Stop the machine at any time by taking your finger off the button
- A choice of emergency stop or key switch on control panel

Dumpmaster MegaDumpers

- MegaDumpers[®] provide a solution for emptying larger bins weighing up to 750kg
- MegaDumpers[®] are based on the proven tipping action of the Dumpmaster[®] and represent one of the safest, most efficient, and easiest to use bin emptying solutions in the world
- Originally designed for tipping 660 and 1100 litre bins weighing up to 750kg, the MegaDumper can tip to any height from 700mm to 5 metres or more, and comes standard with full-cage guarding
- Standard tip heights from 1.2m to 1.8m but can be built economically to any height
- Standard machine are built to suit all wheelie bins, from 60L, 80L, 120L, 140L, 240L up to either 660L or 1100L wheelie bins.
- All cradles require absolutely no clamping, and come with a simple retainment system which needs almost no input from the operator
- Custom cradles available to suit other bins and drums
- MegaDumpers[®] are available with 1-phase, 3-phase, air or battery power packs. Battery-powered tippers have a sealed battery and an industrial-quality 'float' charger built in
- · Available with either bolt down lugs or four castors, 2 with brakes
- Industrial grade galvanised frame
- Suitable for indoor or outdoor use
- Guarding includes a swing-up door with solenoid operated door lock, preventing all access to moving parts while machine is in operation.Machine is also immobilised while door is open
- Machine can be specified to meet AS/NZ 4024:2014 safety requirements. This includes a double door lock system, an in-built electronic evaluation unit, and comprehensive array of additional guarding panels.

Plastic Pallet Bins

This multi-purpose forklift bin is of all-poly construction.

Needing no support frame due to its unique ribbing, this bin offers extreme durability to bulk transfer applications.

Popular Applications

- Food Processing
- Bulk Parts Storage
- Hazardous Goods
- Waste Management
- Raw Material Transfer
- Fruit & Vegetable Transportation
- Plastics Processing

Features

- Nest or Stack capability
- Enclosed Fork pockets available for pallet rotation
- Hygienic Food-Grade polyethylene
- Ideal Pallet Size for Transportation
- Bin stacks when rotated 180°
- FEA Analysis Testing completed for strength
- 1000 litre capacity
- · Ideal for pet food, fruit, vegetables, nuts and general materials handling
- Standard colour is blue however grey and white available on request
- Nestable and stackable
- Optional Lids available

Lids available to suit

Workplace, Storage & Safety

Stackable Stillage Cage

These stackable stillage cages are an excellent form of warehouse and yard storage. Designed to store long awkward objects for easy transport, these units may be stacked to make use of the vertical space in your warehouse.

- Fits standard Australian size pallets including Chep and Loscam
- Can be safely stacked 3 high when in use
- Finish: Zinc plated
- Base Material Size: RHS 30x60x1.8mm
- Post Size: 60x2.5mm
- Cupped feet add an additional 100mm to the external size (50mm per side)
- Clearance between ground and bottom frame is 110mm
- Clearance between stillages when stacked is 1545mm

Code	Load Capacity (kg)	Post Height from Top of Base (mm)	Internal Size LxWxH (mm)	External Size LxWxH (mm)	Base Height (mm)	Unit Weight (kg)
SC955	1000	1490	1250x1250x1490	1390x1390x1655	170	54

Stillage Mesh Cage

- These mesh cages are an excellent form of warehouse storage.
- Combining the usefulness of mesh cages with the flexibility of stillages, these stillage mesh cages may be stacked higher than
- a normal mesh cage due to the stillage posts.
- Pallet Rack Safe these cages have built in racking locators making it an ideal storage cage and safe storage on pallet racking
- Powder coated frames with gal mesh sides
- Forklift access from front and sides
- Solid steel floor
- Can be collapsed for storage
- Can be safely stacked 5 high when in use

Workplace, Storage & Safety

Coolroom Shelving

This modular coolroom shelving is manufactured from zinc coated & lacquered steel for extended life in cold and wet areas.

- Ideal for coolrooms and freezers
- Also suitable for use in kitchens, dry stores, liquor stores, linen stores and many other applications
- Available with either wire or ABS plastic shelves
- Easy and quick setup
- Adjustable feet for levelling on uneven floors
- Shelf capacity: 125kgs
- Extra shelves and components available on request
- These are our standard stock sizes however many other sizes and configurations are available on request

Please contact us for a quotation on other sizes and/or for a complete Installation project price

Mobile Compacting Shelving

We have completed hundreds of these compact shelving systems over the last 20 years for schools, institutions, industry & government departments and are experts at analysing & satisfying your storage needs.

- By converting standard static shelving to mobile shelving, up to 70% of your floor space can be saved, maximizing the available area
- Each system is individually tailored to suit the specific need & can incorporate a wide range of storage accessories
- Manually operated units require only light pressure to move the bays, and are suitable for storage of light to medium weight items
- Mechanically assisted units are built for larger systems or for storage of heavy items. They are operated by the simple action of rotating a handle

View more details and product info online at www.mhaproducts.com.au/ mobile-compacting-shelving

Our mobile shelving systems represent the ultimate refinement in high density storage. The stylish design suits any office environment providing a versatile and efficient storage solution.

- Variety of height and width combinations available to meet all storage needs
- · System is fully lockable for added security
- Shelves are fully adjustable in 25mm increments to suit changing storage needs
- Mechanically assisted or manual operationLow profile track
- Available in single, tandem or triple bay widths
- Can be moved easily to suit the changing office environment

Pallet Racking Column Guards

- Pallet Racking Column Guards are a highly effective solution for preventing damage to racking and inventory by forklifts.
- No matter how good your forklift drivers are, there will always be some time when an accident or mistake happens when they crash into the pallet racking.
- You can avoid major injuries and pallet rack damage by installing these protection guards.
- Damage and failure not only causes serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.
- Conforms to relevant Australian Standards

Pedestrian Safety Barriers

- The ECO Safety Rail is a 1m high handrail system designed to keep personnel from straying into harms way.
- It is a flat pack modular barrier system that comes in 3m kits that simply lock together with couplings to form a continuous barrier at your desired length.
- This system uses round corner elbows which allows you to have a continuous handrail along winding passageways and around corners.
- It's easy to order and install Start with a STARTER BAY, add as many ADD-ON BAYS as you require, and finish it with an END-BAY.

Optional Kickplates

The 100mm x 6mm kickplate accessory is easily adapted providing protection against obtrusions into passageways. Kickplates are essential on the edge of elevated walkways and platforms that are more than 2m above floor level.

Features

- Material mild steel
- Finish powdercoated yellow
- Height Im
- Fully modular
- Unique 'anti-wobble' stanchion
- Comes in kit form all fixings included
- Fast assembly time Easy to install
- Complies with AS1657-2013

Pedestrian Event Control Fence

Event Fence portable barrier is a system of interlocking freestanding fence panels. Simply link Event Fence panels together to create continuous barricading for festivals, parades, sporting events or work sites. Optional forklift stillage makes storage and transporting of Event fence panels simple and efficient.

Fence Specifications

- Fully welded steel construction, galvanised finish
- Panels nest together when not in use to reduce storage space
- Vertical bars eliminate climbing points
- Panels are able to pivot at joins
- Low profile, removable feet reduces tripping hazards

Portable Ecoline Belt Post Barrier

The Econoline is our most affordable portable post and base belt barrier, offering an economical alternative to the high end Highline models. The weighted base is covered with a polished stainless steel skirt for a quality finish. The base has built-in scuff pads to protect sensitive floors. Furthermore, the Portable Ecoline Belt Post Barrier is compatible with our other belt barriers, as it uses the same belt cassettes.

Specifications

- Post: 304 stainless, 63 x 0.8 x 950mm high
- Base: Weighted with stainless skirt
- Base Size: 330mm diameter
- Portable freestanding
- Retractable 2 metre 4-way
- Weight: 8kg

Orbitwrap Wrapper Turntable

- Makes wrapping by hand quicker and easier, saving time and money
- Forklift portability allows for easy placement throughout any facility
- Equipped with guarded foot switch and speed control
- Power: 240V single phase
- Speed: 1-10 rpm
- Capacity: 1500kg
- Turntable Size: 1520mm diameter (80mm high)
- Front fork relocation slots
- Heavy duty foot pedal
- Inverter for soft start and stop
- Ramp available for pallet truck access

EXP-308 Semi-Auto Stretch Wrapping Machine

- Disc brake stretch
- Turntable auto home position
- Soft start and stop
- Choices of automatic/ manual modes
- Adjustable top and bottom wrap counts
- · Adjustable wrapping tension/ turntable speed/ carriage speed
- 180° rotating control box
- Trouble shooting shown on screen
- Manual reinforcing wrapping
- Safety switch to prevent from foot pinch
- Height detection by photo sensor

Orbitwrap 1000 Semi-Auto Stretch Wrapping Machine

The ORBITWRAP machines have been designed and built with economy, efficiency and safe operation in mind.

These stretch wrapping machines will give you all of the features you need to wrap pallet loads quickly and efficiently. The OR-1000 can dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping.

- Forklift relocation slots for easy machine transportation
- Automatic and manual wrapping programs
- Includes ramp for pallet truck access
- User friendly 'Soft Touch' controls
- Eliminate the need for labour intensive, inefficient manual hand wrapping
- Rugged steel construction for long-term reliability
- Photocell eye for automatic height detection

Standard Features

- Electronic screen with 'Soft Touch' control
- Variable film carriage and turntable speeds
- Forklift relocation slots
- Photocell eye for automatic height detection
- Automatic and Manual wrapping programs
- Soft-start and stop turntable drive
- Ramp can be fixed to the table at 3 different angles
- Includes pallet truck access ramp
- Adjustable friction brake stretch system
- Heavy-duty industrial chain driven turntable
- Safety crush prevention device fitted to carriage
- Standard 12 month warranty

Orbitwrap Semi-Auto Pre-Stretch Wrapping Machine

The ORBITWRAP machines have been designed and built with economy, efficiency and safe operation in mind.

These stretch wrapping machines will give you all of the features you need to wrap pallet loads quickly and efficiently. The OR-2000 can dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping due to the powered pre-stretch feature.

- Powered Pre-Stretch up to 250%.
- Forklift relocation slots for easy machine transportation
- Automatic and manual wrapping programs
- Includes ramp for pallet truck access
- User friendly 'Soft Touch' controls
- · Eliminate the need for labour intensive, inefficient manual hand wrapping
- · Rugged steel construction for long-term reliability
- Photocell eye for automatic height detection

Standard Features

- Power Pre-Stretch up to 250%
- Easy film threading/quick loading
- Electronic screen with 'Soft Touch' control
- Variable film carriage and turntable speeds
- Forklift relocation slots
- Photocell eye for automatic height detection
- Automatic and Manual wrapping programs
- Soft-start and stop turntable drive
- Ramp can be fixed to the table at 3 different angles
- Includes pallet truck access ramp
- Heavy-duty industrial chain driven turntable
- Safety crush prevention device fited to carriage
- Standard 12 month warranty

Battery Operated Strapping Machines

Pacmasta

- These battery operated strapping tools tension, weld and cut all in one tool!
- Brushless motor, provides long service life
- Li-Ion 18 volt, 4.0Ah Battery, Bosch 30 minutes charger
- Patented strap grippers design
- Single-handed operation
- Pre-programmed touch panel
- Lightest model, easy removal of tool
- Unique rear-end roller, soft-mode
- Conforms to CE safety directive
- Battery complies with UN38.3 safety requirements
- Max. tension 400 KGS (4000N) ZP97 heavy duty model
- Max. tension 250 KGS (2500N) ZP93 standard duty model.

AFS900 Fully Automatic Strapping Machine

The AFS-900 is an enhanced automatic strapping machine for wide straps (8 mm-12 m). With the enhanced features , it is the most powerful machine and the best price/performance ratio product in its class for wide straps general purpose application.

- Simply insert the strap into the feeding rollers from the coil side of the machine and then push the "reset" button.
- The machine will automatically feed the strap without the need to access to the inside of the machine. Easy strap loading.
- Strap tension can be adjusted accurately by the simple turn of a dial. Easy operation.
- Robust mechanism design and high engineering standard ensure excellent durability of the products.
- Uses two proximity switches to replace conventional limit switches.
- The machine will automatically refeed and/or eject the strap
- Opening Size: 850x600mm (WxH)
- Table Height: 810mm
- Strap Thickness: 0.55 0.75mm
- Electrical Requirements: 220V 50Hz single phase

Code	Strapping Speed	Strap Tension (kg)	Strap Width (mm)	Overall Size WxDxH (mm)	Unit Weight (kg)
AFS900	29 straps/min	7 - 70	8 - 12	1430x620x1450	220

Stainless Steel Semi Automatic Strapping Machine

Side sealing semi auto strapping machine which is sealing head is mounted on the side of the machine to protect from dust and water. Great for dirty, moist or harsh working environments.

- High reliability and performance
- · Low maintenance is required
- Mechanical tension control
- Lockable castors
- Sealing Table
- Adjustable Table Height between 420mm and 770mm

Sydney (02) 8865 1800

- Sealing Table Depth: 350mm
- Sealing Height: 875mm
- Power: AC230V(50Hz), Single phase

Packaging Machinery

High Speed Automatic Strapping Machine

The THS-200 is an innovative, world-class, high-speed automatic strapping machine.

It is equipped with all the industry's standard features and several creative user friendly designs. It offers the most optimal performance, highest speed, easiest maintenance and the most cost effective solution in its class today.

- Robust & Compact Mechanical Strapping Head
- Free Access to Strap Guides (patents registered)
- Waist-High Auto Strap Feeding
- Waist-High Quick Coil Change
- Ergonomic Cycle Initiation
- Auto Strap Ejector
- Adjustable Table Height
- Overall Height: 1325 1425mm (adjustable)
- Overall Width: 840mm
- Overall Depth: 652mm
- Sealing Table Height: 820 920mm (adjustable)
- Sealing Height is 875mm
- Power: AC230V (50Hz), Single phase

Automatic Carton Sealing Machine

This PMCS-100 Carton Sealing Machine can seal both top and bottom of the carton simultaneously at a fast speed.

- Fast taping of all types/sizes of cartons/boxes (Height adjustable)
- Easy operation, just push box & release.
- Double motor (two side-drive belts), can push the heaviest of boxes
- Heavy-duty body with powder coated finish
- Robust machine design & long-working, trouble-free life.
- Freely movable on caster wheels, wherever your packing work is done
- Interchangeable top and bottom dispenser
- Tape overlap length can be adjusted
- Blade guards, safe to work
- Seals cartons neatly & efficiently
- Overall Size: 1160x886x1585mm (LxWxH)
- Worktable Height: 550-700mm
- Power Supply: 220V/50Hz, 400W

Semi Automatic Strapping Machine

The TMS-300 machine is an affordable, portable, and compact semi-auto strapping machine.

- They are designed for general purpose and can meet your various applications. With thousands of machines exported to the world every year, the quality of the TMS-300 machine is highly proven.
- This machine is compact and light-weight, enabling easy transportation and only requires a small space for installation.
- A single motor powers the machine. Stable operation is assured even if the voltage drops.
- Adjustment for use of any strap in a width up to 15.5 mm can be made by slackening off only four screws.
- Power: AC230V(50Hz), Single phase

Code	Strapping Speed	Max Tension (kg)	Strap Width (mm)	Overall Size LxWxH (mm)	Unit Weight (kg)
TMS00	2.5 sec/strap	45	6 , 9 , 12 , 15.5	910x582x785	100

Fully Automatic Strapping Machine

The TRS-600 is an economical automatic strapping machine for wide straps (8-15.5 mm). With proven quality and competitive price, it is the most cost effective solution for wide straps general purpose application.

- Easy operation, simple maintenance
- Quality steel construction, this strapping machine is designed for constant use in numerous applications
- Opening Size: 850mm wide x 600mm high
- Tension can be easily set with a dial
- Electrical Requirements: 220V 50Hz single phase

ACKNOWLEDGEMENT

I, (Print Name)	acknowledge that the above information is true and correct.
-----------------	---

SIGN HERE POSITION HELD WITHIN THE BUSINESS

DATED ON BEHALF OF THE CUSTOMER

IN APPLYING FOR CREDIT, I AGREE ON MY/THE CUSTOMERS BEHALF, TO MHA Products'S GENERAL TERMS AND CONDITIONS WHICH ARE WRITTEN ON THE FOLLOWING PAGE.

GENERAL TERMS AND CONDITIONS

1. SELLER means MHA PRODUCTS ABN 38 368 064 476 and BUYER means the Buyer whose order for the purchase of goods is accepted by Seller.

2. ACCEPTANCE OF BUYER'S ORDER: These terms and conditions shall apply to every sales contract and sale of goods between Seller and Buyer; any terms and conditions of Buyer's order deviating from or inconsistent with these Terms are expressly rejected by Seller. This rejection also extends to any statements by Buyer that Buyer's terms and conditions shall

prevail and to any stipulation by Buyer as to the manner of declaring such rejection. A contract shall only be or be deemed to have been entered into between Seller and Buyer for the supply of goods when, upon an order having been placed upon Seller for goods, that order has been accepted by Seller. (Such acceptance of order may be made and communicated by Seller in writing or by overt act of acceptance.) The provisions of this clause 2 shall apply to every quotation or offer by Seller for the supply of

3. PRICES: All prices are listed in our quotations and website exclude 10% GST. Prices listed and/or quoted are subject to change or alteration without notice. Quotations are to be treated as estimates only and subject to withdrawal, correction or alteration at any time before acceptance of Buyer's order by Seller

4. INSURANCE: Buyer is responsible to effect whatever insurance cover he requires at his expense

5. PRODUCTS: Products pictured in our product catalogue or on our quotations are to be used as a guide only. Products may be substituted for as close as possible equivalent if they become unavailable.

6. FREIGHT PRICES: Standard freight prices are calculated on our website to your postcode. Extra freight charges will apply for bulky, large or long items however we will confirm this with you prior to processing your order. Freight charges to regional and all other areas may have some additional fees

7. PAYMENTS: Payments can be made via credit card or direct deposit. If the Seller shall extend credit to Buyer, payment for all goods sold will be within thirty (30) days from the last day of the month in which each delivery was made. Interest shall be payable by Buyer on all amounts overdue to Seller at the rate of two (2) per centum per month. Buyer is liable for all expenses incurred by Seller in recovering the debt.

8. CANCELLATION: Orders accepted by the Seller cannot be countermanded or delivery deferred or goods returned except with the written consent of Seller and upon terms that

reimburse and indemnify Seller against all loss including cartage, bank charges and other incidental expenses on any part of the order that is cancelled. Where Seller agrees to accept goods for return a re-stocking charge of 20% may apply of the price of the goods returned.

9. ACCEPTANCE OF CLAIMS: Acceptance of the goods delivered shall be deemed for all purposes to have taken place at the expiration of seven (7) days from the date of each delivery.

10. DELIVERY AND RISK: Unless the Buyer has requested Seller to make special delivery arrangements the risk in respect of the goods shall pass to the Buyer upon delivery to the Buyer's premises or the nominated carrier's depot. The Buyer shall provide or cause to be provided full and clear access for delivery and will at its own expense provide all necessary

assistance in unloading the goods at the nominated place of delivery. Seller will not in any circumstances accept liability for damage, shortage or loss during transit. If delivery of the goods by Seller is delayed for a cause other than its own negligence the Buyer shall be liable for extra charges, losses or expenses incurred by Seller and the Buyer shall not be entitled to cancel the order by reason thereof.

11. SPECIAL ORDERS: Buyer will place order in writing to Seller for non-standard and customised items. Seller will not accept return of these items unless the manufacturer agrees to accept return from Seller. Seller may deduct transport handling and restocking charges of 20% of the price of the goods from the credit due to Buyer.

12. RISK AND PROPERTY: The risk in the goods or services sold shall pass to Buyer at the point of delivery. This shall also apply to any partial delivery of goods. If delivery of goods is delayed due to any circumstances beyond the control of Seller the risk passes to Buyer on the day regarded as date of delivery. The Seller accepts no responsibility for the misuse or

improper use of goods or products supplied. The Buyer accepts the full responsibility for any damage or injury either to property or persons caused by the products or services supplied by the Seller

13. PERSONAL PROPERTIES SECURITIES ACT 2009 (PPSA): The Buyer hereby acknowledges that these Terms and Conditions of Trade constitute a security agreement which creates a security interest in favour of the Seller in all Goods previously supplied by the Seller to the Buyer (if any) and all after acquired Goods supplied by the Seller to the Buyer's account) to secure the payment from time to time and at a time, including future advances. The Buyer agrees to grant a "Purchase Money Security Interest" to the Seller. The Buyer acknowledges and agrees that by assenting to these terms the Buyer grants a security interest (by virtue of the retention of title clause in these Terms and Conditions of Trade) to the Seller and all Goods previously supplied by the Seller to the Buyer (or for the Buyer's account) and these terms shall apply notwithstanding anything express or implied to the contrary contained in the Buyer's purchase order. The Buyer undertakes to;

(i) sign any further documents and/or provide any further information (which information the Buyer warrants to be complete, accurate and up -to-date in all respects) which the Seller may reasonably require to enable registration of a financing statement or financing change statement on the Personal Property Securities Register ("PPSR"); (ii) not register a financing change statement of the PPSA or make a demand to alter the financing statement pursuant to the PPSA in respect of the Goods without the prior written consent of the Seller.

(iii) give the Seller not less than 14 days written notice of any proposed change in the Buyer's name and/or any other changes in the Buyer's details (including by not limited to

(ii) give the selen hot less than 4 days written hotce of any proposed change in the Bayer's hot light the Bayer's details (including by hot limited to changes in the Bayer's address, facsimile number, email address, trading name or business practice); (iv) pay all costs incurred by the Seller in registering and maintaining a financing statement (including egistering a financing change statement) on the PPSR and/or enforcing or attempting to enforce the security interest created by these Terms and Conditions of Trade including executing subordination agreements; (v) be responsible for the full costs incurred by the Seller (including actual legal fees and disbursements on a solicitor and client basis) in obtaining an order pursuant to section 182 of the PPSA; and the Buyer waives any rights it may have under sections 115 of the PPSA upon enforcement. Pursuant to section 157 of the PPSA, unless otherwise agreed to in writing by the Seller, the Buyer waives the right to receive the verification statement in respect of any financing statement or financing change statement relating to the security interest. The Buyer agrees that immediately on request by the Seller the Buyer will procure from any persons considered by the Seller to be relevant to its security position such agreement and waivers as the Seller may at any time require.

14. DELIVERY TIME: Seller may deliver the goods by instalments or partial shipments and Buyer will accept each delivery. Requirements of Buyers shall not be a condition or of the essence of the sale. Seller shall be under no liability for direct or consequential loss or damage to Buyer arising from delay or postponement in delivery.

15. WARRANTY: Goods sold shall only have the benefit of a manufacturer's warranty if the purchaser has complied with the manufacturer's instructions in relation to mainte-nance and operation of the goods sold. Sellers liability in respect of a breach of a consumer guarantee for any goods not of a kind ordinarily acquired for personal, domestic or household use is limited to, to the extent permissible by law and at the Seller's option in relation to the goods. (i) The replacement of the goods or the supply of an equivalent;

(iii) The repair of the goods; (iii) The payment of the cost of replacing the goods or acquiring equivalent goods, or the payment for the cost of having the goods repaired. The exemption, limitations, terms and

conditions in these Terms apply whether or not the loss or damage is caused by negligence or actions constituting fundamental breach of contract. The Seller is not otherwise liable for any direct, indirect or consequential loss or damage howsoever arising or occurring, whether founded in tort, contract, statute or otherwise. Goods returned by Buyer to Seller for repair will be free of all charges to Seller and at Buyer's risk.

16. NO IMPLIED SERVICE: The Buyer acknowledges that excepting as provided by law this agreement does not entitle the Buyer to demand to receive from us any site inspection or service of the goods supplied, delivered and installed if applicable. If the Buyer does require our services in respect of site inspection and service of the goods, the subject of this

agreement, then the Buyer should arrange with us to enter a separate agreement in respect of same. In the event that no separate agreement in relation to site inspection and service is required by the Buyer, then the Buyer acknowledges that in the event of the goods supplied required to be serviced or inspected due to breakdown or otherwise, then the Buyer shall rely solely on any benefit in respect of same provided by the manufacturer.

17. COUNCIL APPROVAL: Our products make no allowances for building or development application or Fees to Council or relevant approvals for use required by Council or Government Codes. Responsibility is solely on the Buyer for such approvals for goods and their installation or use.

18. CLERICAL ERRORS: Clerical errors in computations, typing or otherwise in our product catalogue or quotation shall be subject to correction. Errors and omissions excepted.

19. MODIFICATIONS: All modifications and amendments to these Terms and Conditions shall be in writing and if otherwise shall not be binding upon Seller.

20. If any of the provisions of the Contract are unlawful or invalid by reason of any applicable statute or rule of Law, then such provision shall be severed from the rest of this Contract which shall remain valid and binding on the parties.
