Heavy Duty Hygiene Pallet

Heavy duty Environmentally friendly plastic pallets which are made from recycled polyethylene material

- Beam Racking & Forklift Movement Capacity: 2000kgs
- Drive-In Racking Capacity: 1000kgs

Please Note: Capacity weights are approx only and we recommend that racking trials be carried out in each case

Code	Static SWL (kg)	Overall Size LxWxH (mm)	Unit Weight (kg)
70352	8000	1165x1165x150	34

Plastic Mega Bins

- Designed for fruit and vegetable movement and retail high performance
- Rounded corners and smoother interior surfaces results in less bruising and damage to your produce.
- Multiple vents in sides and base provide superior airflow so products cool faster adding valuable shelf life to your produce.
- The smooth, non-absorbent surface will not harbour or transfer mould, bacteria or disease carrying organisms.
- Available in both solid and vented
- Standard pallet size (1165mm x 1165mm)
- Fits on standard pallet racking
- Maximum load capacity: 500kgs

Stackable with or without the lid

Collapsible Plastic Bins

- Available in vented and non-vented versions
- Internal rounded air vents
- Free air flowing vented base for quick chilling
- 2-way entry with racking locators
- Drain holes
- Food grade quality
- UV stabilized
- Company logo printing available
- Dust cover lid available
- Vented and non-vented models
- 2:1 Fold down ratio
- Increase transport efficiency
- Stacking: 8 high less than 35°C, 20 high folded
- Static Capacity: 3000kg
- Dynamic Capacity: 1000kg
- Suitable: -20°C to +40°C

Solid bins are ideal for storing items such as machinery parts, equipment, accessories etc.

Vented bins are ideal for storing food product that requires air flow e.g. fruit.

Bins can be collapsed for easy storage and transport

Plastic Pallet Bins

This multi-purpose forklift bin is of all-poly construction.

Needing no support frame due to its unique ribbing, this bin offers extreme durability to bulk transfer applications.

Popular Applications

- Food Processing
- Bulk Parts Storage
- Hazardous Goods
- Waste Management
- Raw Material Transfer
- Fruit & Vegetable Transportation
- Plastics Processing

Features

- Nest or Stack capability
- Enclosed Fork pockets available for pallet rotation
- Hygienic Food-Grade polyethylene
- Ideal Pallet Size for Transportation
- Bin stacks when rotated 180°
- FEA Analysis Testing completed for strength
- 1000 litre capacity
- Ideal for pet food, fruit, vegetables, nuts and general materials handling
- Standard colour is blue however grey and white available on request
- Nestable and stackable
- Optional Lids available

Double Width Storage Transport Cage

- Front and rear gates half fold down and are fully removable, allowing safe, easy and fast access to goods
- Pallet Rack Safe – these cages have built in racking locators making it an ideal storage cage and safe storage on pallet racking
- Collapse/Assemble in seconds
- Lockable lids & weather covers are available on request
- 4 Way forklift access & pallet truck entry
- Anti-tip base design
- Half fold down & Fully removable front and rear gates
- Zinc plated finish
- Stackable 4 high
- Collapsed height: 320mm

Code	Load Capacity (kg)	Internal Size LxWxH (mm)	Overall Size LxWxH (mm)	Unit Weight (kg)
SC220	1050	2100x1085x810	2200x1160x1055	125

Galvanised Mesh Cage

These mesh cages are an excellent form of warehouse and yard storage. These units are stackable as well as having the capability of being stored in a pallet rack.

- Can be folded down flat for easy storage when not in use
- Folded Height: 300mm
- Can be safely stacked 4 high when in use

Code	Load Capacity (kg)	Folded Height (mm)	Mesh Size (mm)	Overall Size WxDxH (mm)	Unit Weight (kg)
SC750	1000	300	100x50x6	1150x1150x890	80

Wire Pallet Cages

Convert your pallets into cages with the quick and easy to use cages.

- Ideal for storing odd or awkward shaped goods/products
- Can be folded down flat for easy storage when not in use
- Pallet not included

Code	Details	Overall Size WxDxH (mm)	Mesh Size (mm)	Unit Weight (kg)
SC753	1/2 Height Pallet Cage	1170x1170x400	100x50x6	28
SC754	Full Height Pallet Cage	1170x1170x800	100x50x6	44

Stackable Stillage Cage

These stackable stillage cages are an excellent form of warehouse and yard storage. Designed to store long awkward objects for easy transport, these units may be stacked to make use of the vertical space in your warehouse.

- Fits standard Australian size pallets including Chep and Loscam
- Can be safely stacked 3 high when in use
- Finish: Zinc plated
- Base Material Size: RHS 30x60x1.8mm
- Post Size: 60x2.5mm
- Cupped feet add an additional 100mm to the external size (50mm per side)
- Clearance between ground and bottom frame is 110mm
- Clearance between stillages when stacked is 1545mm

Code	Load Capacity (kg)	Post Height from Top of Base (mm)	Internal Size LxWxH (mm)	External Size LxWxH (mm)	Base Height (mm)	Unit Weight (kg)

Mobile Compacting Shelving

We have completed hundreds of these compact shelving systems over the last 20 years for schools, institutions, industry & government departments and are experts at analysing & satisfying your storage needs.

- By converting standard static shelving to mobile shelving, up to 70% of your floor space can be saved, maximizing the available area
- Each system is individually tailored to suit the specific need & can incorporate a wide range of storage accessories
- Manually operated units require only light pressure to move the bays, and are suitable for storage of light to medium weight items
- Mechanically assisted units are built for larger systems or for storage of heavy items. They are operated by the simple action of rotating a handle

View more details and product info online at www.mhaproducts.com.au/mobile-compacting-shelving

Our mobile shelving systems represent the ultimate refinement in high density storage. The stylish design suits any office environment providing a versatile and efficient storage solution.

- Variety of height and width combinations available to meet all storage needs
- System is fully lockable for added security
- Shelves are fully adjustable in 25mm increments to suit changing storage needs
- Mechanically assisted or manual operation
- Low profile track
- Available in single, tandem or triple bay widths
- Can be moved easily to suit the changing office environment

 **1800 750 900**

Mechanically Assisted

Mechanically assisted units are built for larger systems or for storage of heavy items. They are operated by the simple action of rotating a handle

Manually Operated

Manually operated units require only light pressure to move the bays, and are suitable for storage of light to medium weight items

Racking Projects: Cantilever

Need to store oversized items such as bulky furniture, timber lengths, PVC and steel pipes, carpet rolls, plasterboard, windows and doors? Cantilever Racking is the ideal product with adjustable arms and completely customisable configurations.

See below for examples of our cantilever racking projects!

Available in both single and double sided configurations in both medium duty and heavy duty versions. Our cantilever racking is also available in galvanised finish which is great for outdoor storage areas.

Medium Duty Cantilever Racking

	Powder Coated	Galvanised
Post Height	2000mm 2400mm 3000mm 3600mm	2000mm 2400mm
Arm Length	700mm 900mm 1200mm	700mm
Bracing / Spacing	900mm 1200mm 1500mm 1800mm	1200mm 1500mm 1800mm

* Custom sizes available upon request

Heavy Duty Cantilever Racking

	Powder Coated	Galvanised
Post Height	3658mm 4267mm 4877mm 6096mm	2000mm 2400mm
Arm Length	900mm 1200mm 1500mm	700mm
Bracing / Spacing	900mm 1200mm 1500mm 1800mm 2100mm	1200mm 1500mm 1800mm

* Custom sizes available upon request

Our cantilever racking is also available in galvanised finish which is great for outdoor storage areas.

Racking Projects: Selective Pallet Racking

- Selective Pallet Racking is a straight forward, cost effective racking system
- Allows individual access to each pallet
- Provides space utilization yet retains total product accessibility
- Can be adjusted & adapted very easily
- We can supply & install your pallet racking system
- Free analysis & design service
- Australian Standard approved AS4084-2012

Contact us for pricing on installation

Pallet Racking Frames – Galvanised Finish

Code	Details	Frame Height (mm)
11201	Pallet Racking End Frame	3048
11210	Pallet Racking End Frame	3658
11202	Pallet Racking End Frame	4267
11203	Pallet Racking End Frame	4877

11326	Pallet Racking Mesh Decks (suits 2750mm beams)	1000	1350	840

Pallet Racking Column Guards

- Pallet Racking Column Guards are a highly effective solution for preventing damage to racking and inventory by forklifts.
- No matter how good your forklift drivers are, there will always be some time when an accident or mistake happens when they crash into the pallet racking.
- You can avoid major injuries and pallet rack damage by installing these protection guards.
- Damage and failure not only causes serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.
- Conforms to relevant Australian Standards

Code	Overall Size HxD (mm)
11327	400x220

Pallet Racking End Protectors

Pallet Racking End Protectors are a highly effective solution for preventing damage to racking and inventory by forklifts.

No matter how good your forklift drivers are, there will always be some time when an accident or mistake happens when they crash into the pallet racking. You can avoid major injuries and pallet rack damage by installing these protection guards.

Damage and failure not only cause serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.

- Single Bay End Protector to suit 838mm frame
- Double Bay End Protector to suit 838mm frame + 430mm space + 838mm frame
- Conforms to relevant Australian Standards

11240 (to suit single bay of racking)

11241 (to suit double bay of racking)

Code	Description	Height (mm)	Overall Length (mm)
11240	Racking End Protector (to suit single bay of racking)	400	1080
11241	Racking End Protector (to suit double bay of racking)	400	2350

Safety Bollards

- Ideal for protecting expensive equipment and racking from possible forklift damage
- Great for protecting edges of roller doors from truck damage
- 5 options available however other sizes can be made to order to your particular specifications

Pedestrian Safety Barriers

- The ECO Safety Rail is a 1m high handrail system designed to keep personnel from straying into harms way.
- It is a flat pack modular barrier system that comes in 3m kits that simply lock together with couplings to form a continuous barrier at your desired length.
- This system uses round corner elbows which allows you to have a continuous handrail along winding passageways and around corners.
- It's easy to order and install - Start with a STARTER BAY, add as many ADD-ON BAYS as you require, and finish it with an END-BAY.

Optional Kickplates

The 100mm x 6mm kickplate accessory is easily adapted providing protection against obtrusions into passageways. Kickplates are essential on the edge of elevated walkways and platforms that are more than 2m above floor level.

Features

- Material – mild steel
- Finish – powdercoated yellow
- Height – 1m
- Fully modular
- Unique 'anti-wobble' stanchion
- Comes in kit form – all fixings included
- Fast assembly time – Easy to install
- Complies with AS1657-2013

Code	Details	Kit Type	Size - HxL (mm)

Pedestrian Event Control Fence

Event Fence portable barrier is a system of interlocking freestanding fence panels. Simply link Event Fence panels together to create continuous barricading for festivals, parades, sporting events or work sites. Optional forklift stillage makes storage and transporting of Event fence panels simple and efficient.

Fence Specifications

- Fully welded steel construction, galvanised finish
- Panels nest together when not in use to reduce storage space
- Vertical bars eliminate climbing points
- Panels are able to pivot at joints
- Low profile, removable feet reduces tripping hazards

Code	Details	Height (mm)	Length (mm)	Width (mm)	Unit Weight (kg)
B6710	Event Fence Barrier Panel	1100	2200	490	16
B6711	Event Fence Stillages (holds 30 panels)				

T-Top Bollards

- Fluoro red post with reflective tape
- Heavy weight Rubber base
- Complies to relevant Australian Standards

Overall Height (mm)	Rubber Base Weight (kg)

B3444	Wall Mount Retractable Barrier	Yellow 
B3446	Wall Mount Retractable Barrier	Black/Yellow 
B3447	Wall Mount Retractable Barrier	Red/White 

Portable Ecoline Belt Post Barrier

The Econoline is our most affordable portable post and base belt barrier, offering an economical alternative to the high end Highline models. The weighted base is covered with a polished stainless steel skirt for a quality finish. The base has built-in scuff pads to protect sensitive floors. Furthermore, the Portable Ecoline Belt Post Barrier is compatible with our other belt barriers, as it uses the same belt cassettes.

Specifications

- Post: 304 stainless, 63 x 0.8 x 950mm high
- Base: Weighted with stainless skirt
- Base Size: 330mm diameter
- Portable freestanding
- Retractable 2 metre 4-way
- Weight: 8kg
